Source: US Department of HUD/FHA; September 2015.

<sup>a</sup> In accordance with statutory requirements for determining eligibility of loans for FHA insurance, HUD measures loan-to-value (LTV) ratio without including any financed mortgage insurance premium in the loan balance.

<sup>b</sup> Shares are based on loan counts.

<sup>c</sup> Loans with a LTV less than 80 percent.

<sup>d</sup> The statutory maximum LTV since October 1, 2008, is 96.5 percent. Prior to October 1, 2008, the statutory maximum was 97 percent, with higher allowances for borrowers financing loan closing costs into the mortgage balance. If there was such financing, then the statutory maximum was between 97 and 98.15 percent, depending on the geographic location and price of the property.

<sup>e</sup> Only includes data for July and August.

Source: US Department of HUD/FHA; September 2015.

<sup>a</sup> Credit scores are cobranded between the three major credit repositories (Equifax, Experian, TransUnion) and Fair Isaac Corporation (FICO). Values can range from 300 to 850. FHA policy permits credit scores of 580 and above, except for loans with equity positions of 10 percent or more, which may have credit scores as low as 500. They are grouped here according to the “decision” score used for loan underwriting. The decision score represents the weakest borrower on a loan application when there are multiple applicants. Streamline refinance loans do not require full underwriting; therefore, they are not represented here.

<sup>b</sup> Shares are based on loan counts.

<sup>c</sup> Only includes data for July and August.

<sup>a</sup> Early Payment Delinquencies are defined as loans which have had a 90-day delinquency within the first six months of required mortgage payments. The first payment-due month is the second month after loan closing. Thus, these rates indicate the percent of loans experiencing a 90-day delinquency within 7 months of loan closing.

Table 5: Average Debt-to-Income Ratios on New Purchase Endorsements by Credit Score Value Range

<sup>a</sup> Credit scores are cobranded between the three major credit repositories (Equifax, Experian, TransUnion) and Fair Isaac Corporation (FICO). Values can range from 300 to 850. FHA policy permits credit scores of 580 and above, except for loans with equity positions of 10 percent or more, which may have credit scores as low as 500. They are grouped here according to the “decision” score used for loan underwriting. The decision score represents the weakest borrower on a loan application when there are multiple applicants. Streamline refinance loans do not require full underwriting; therefore, they are not represented here.

<sup>b</sup> Only includes data for July and August.

Table 6: Average Loan-to-Value Ratios on New Purchase Endorsements by Credit Score Value Range

Fiscal Year	Quarter	Loan Count	Credit Score Value Ranges <sup>a</sup>					
			500-619	620-639	640-679	680-720	720-850	All
