

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

Overview of This Information Collection

(1) *Type of Information Collection:* Revision of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Petition for Alien Relative.

(3) *Agency form number, if any, and the applicable component of the DHS sponsoring the collection:* I-130, and I-130A; USCIS.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* *Primary:* Individuals or households. Form I-130 allows U.S. citizens or lawful permanent residents of the United States to petition on behalf of certain alien relatives who wish to immigrate to the United States. Form I-130A allows for the collection of additional information for spouses of the petitioners necessary to facilitate a decision.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated total number of respondents for the information collection Form I-130 is 787,037 and the estimated hour burden per response is 2 hours. The estimated total number of respondents for the information collection Form I-130A is 36,689 and the estimated hour burden per response is 0.833 hours.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total estimated annual hour burden associated with this collection is 1,604,636 hours.

(7) *An estimate of the total public burden (in cost) associated with the collection:* The estimated total annual cost burden associated with this collection of information is 314,603,120.

Dated: October 7, 2015.

Laura Dawkins,

Chief, Regulatory Coordination Division, Office of Policy and Strategy, U.S. Citizenship and Immigration Services, Department of Homeland Security.

BILLING CODE 9111-97-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5893-N-01]

Notice of Deadlines for Installers' Licenses Under the HUD Manufactured Housing Installation Program

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, (HUD).

ACTION: Notice.

SUMMARY: The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended, is intended to protect the quality, safety, durability, and affordability of manufactured homes. In order to accomplish those objectives, the Act requires HUD to establish and implement manufactured home installation programs for States that choose not to operate their own installation programs. Among other things, HUD's installation program for these States includes the training and licensing of manufactured home installers. HUD has recently begun providing the training that would qualify individuals to apply to obtain a manufactured home installation license. As a result, this notice advises that installers wishing to install manufactured homes in States where HUD administers their installation program that they will be required to apply for and obtain a HUD Installer's License.

FOR FURTHER INFORMATION CONTACT:

Pamela Beck Danner, Administrator, Office of Manufactured Housing Programs, Department of Housing and Urban Development, 451 Seventh Street SW., Room 9166, Washington, DC 20410, telephone 202-708-6423 (this is not a toll-free number). Persons who have difficulty hearing or speaking may access this number via TTY by calling the toll-free Federal Information Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION:

I. Background

The National Manufactured Housing Construction and Safety Standards Act of 1974 (42 U.S.C. 5401-5426) (the Act) is intended, among other things, to

protect the quality, safety, durability, and affordability of manufactured homes. The Act was amended on December 27, 2000 (Manufactured Housing Improvement Act of 2000, Title VI, Pub. L. 106-659, 114 Stat. 2997) to require that HUD establish and implement a Federal manufactured home installation program that includes installation standards, the training and licensing of manufactured home installers, and the inspection of the installation of manufactured homes.

On October 19, 2007 (72 FR 59338), HUD began implementing these requirements with the publication of its Model Manufactured Home Installation Standards final rule. The Model Installation Standards, which are codified at 24 CFR part 3285, establish the minimum requirements for the initial installation of new manufactured homes. Under these standards, States that choose to operate an installation program for manufactured homes must implement installation standards that provide protection to its residents that equals or exceeds the protections provided by part 3285.

The Model Manufactured Home Installation Standards are, however, one component of HUD's efforts to implement the Act. The second component, HUD's Manufactured Housing Installation Program, establishes requirements for training and licensing manufactured home installers. HUD published its Manufactured Housing Installation Program regulations, codified at 24 CFR part 3286, on June 20, 2008 (73 FR 35292). Together parts 3285 and 3286 establish requirements that implement Section 605 (42 U.S.C. 5404). Under Section 605, HUD is required to implement an installation program to enforce the Installation Standards in States that do not have installation programs approved by HUD.

II. Installer Licensing in HUD-Administered States

HUD's Manufactured Home Installation program is designed to apply minimum standards to the installation of new manufactured homes and ensure that qualified persons install the homes properly. Manufactured homes that are properly installed provide safe and durable quality housing that can also be highly affordable, since proper installation can mean fewer repairs and longer home-lives. Recognizing that the quality of the installation work on a manufactured home depends primarily on the installer, the training and licensure of individual installers is a central feature of HUD's Manufactured Home

Installation program. Any individual or entity that engages in the business of directing, supervising, or controlling initial installations of new manufactured homes in a state without a qualifying installation program must have, or must employ someone who has, a valid manufactured home installation license, pursuant to § 3286.203.

Under § 3286.205, an individual must meet at least one of the following minimum experience requirements in order to obtain an installation license to perform manufactured home installations under the HUD-administered installation program:

- (i) 1,800 hours of experience installing manufactured homes;
- (ii) 3,600 hours of experience in the construction of manufactured homes;
- (iii) 3,600 hours of experience as a building construction supervisor;
- (iv) 1,800 hours as an active manufactured home installation inspector;
- (v) Completion of one year of a college program in a construction-related field; or

(vi) Any combination of experience or education as described in paragraphs (i) through (v) that totals 3,600 hours.

In addition, initial applicants for an installation license must complete 12 hours of training, at least 4 hours of which must consist of training on the federal installation standards and HUD's installation program regulations. In order to qualify for renewal of an installation license, the licensed installer must complete 8 hours of continuing education during the 3-year license period, including in any particular subject area that may be required by HUD to be covered in order to assure adequate understanding of installation requirements. This training, however, must be conducted by HUD approved trainers.

HUD was, for various reasons, unable to make the training available to implement these requirements after publishing its Manufactured Housing Installation Program regulations. Beginning in Fiscal Year 2015, however, HUD has taken a number of steps to ensure that individuals wishing to obtain a manufactured home installation license had access to the training required to obtain a license. Specifically, HUD awarded a contract to SEBA Professional Services (SEBA) in September 2014, to assist in administering the installation program. Since this time, HUD and SEBA developed procedures for implementing the installation program in the 13 states that do not have a HUD approved installation program, established a Web site for information dissemination, and

prepared sets of test questions for the installer training program. Since June, 2015, HUD and SEBA have conducted pilot installation programs in Maryland and Nebraska to determine and develop program procedures. HUD has approved in-person and online training programs for installers to meet the required 12 hours of training and has approved 3 installation training programs. In July, 2015, HUD and SEBA, using an approved training program and trainer, conducted an in-person 12 hour training for installers and inspectors in Maryland. HUD has also approved an online training program which is currently available, and is working with approved installation program providers to plan regularly scheduled in-person training programs for individuals wishing to take the training required to obtain a HUD Installer License. Additional conference calls will be conducted with specific groups and individuals as needed.

Finally, to disseminate information regarding HUD's implementation of the installation program, SEBA provided program overviews at the April 2015, State Administrative Agency and Third Party Inspection Agency training conference and at the August 2015, meeting of the Manufactured Housing Consensus Committee. The Manufactured Housing Educational Institute (MHEI) is also developing an on-line training course for home inspectors. HUD will hold a retailer webinar on October 20, 2015, to assist retailers in understanding their responsibilities under the program. SEBA has posted all pertinent information associated with installer licensing requirements and other related information on their Web site at www.manufacturedhousinginstallation.com.

As a result, HUD is now able to implement the licensure requirements as provided by § 3286.203. As described below, HUD is implementing these requirements on a rolling basis based on the date on which HUD implemented the State's installation program.

III. Deadlines for Obtaining Installer's License

HUD conducted an initial conference call on July 14, 2015, with Maryland State officials, code officials, installer and retailers to introduce the program and outline the requirements and schedule for full implementation of the program. Participants were advised during the call, that any installers wanting to continue to install manufactured homes in Maryland must obtain a HUD Installer's License by November 1, 2015. This is the date

when full compliance with the requirements of HUD's installation program will be implemented in Maryland. Similarly, HUD conducted a conference call with Nebraska State and local officials, installers and retailers in Nebraska on September 1, 2015. Installers wanting to continue to install manufactured homes in Nebraska must obtain a HUD Installer's License by December 1, 2015, when full compliance with the requirements of HUD's installation program will be required.

HUD plans to conduct conference calls or meetings to introduce its installation programs in Connecticut, Massachusetts, New Jersey, Rhode Island, and Vermont, on December 1, 2015. Again, installers wishing to continue to install manufactured homes in these states, must obtain a HUD Installer's License by May 1, 2016, when full compliance with HUD's installation program will be required.

HUD also plans to conduct conference calls or meetings to introduce its installation programs in Alaska, Hawaii, Illinois, Montana, South Dakota, and Wyoming, on January 1, 2016. All installers wanting to continue to install manufactured homes in Alaska, Hawaii, Illinois, Montana, South Dakota, and Wyoming must obtain a HUD Installer's License by June 1, 2016, when full compliance with HUD's installation program will be required.

More information on obtaining a HUD Installer's License may be obtained online at <http://manufacturedhousinginstallation.com/>, or by writing to the Office of Manufactured Housing Installation Programs, C/O SEBA Professional Services, LLC, 1325 G Street NW., Suite 500, Washington DC 20005, or via email at Hudinfo@sebapro.com.

IV. Paperwork Reduction Act

The information collection requirements contained in this rule have been submitted to the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520), and assigned OMB control number 2502–0578. In accordance with the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless the collection displays a currently valid OMB control number.

V. Environmental Impact

This notice provides operation instructions and procedures for training and licensing manufactured homes installers as required by 24 CFR part

3286, which was previously subject to an environmental review. Accordingly, under 24 CFR 50.19(c)(4), this notice is categorically excluded from environmental review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321).

Dated: October 8, 2015.

Edward L. Golding,

Principal Deputy Assistant Secretary for Housing.

BILLING CODE 4210-67-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-5849-N-05]

Notice of a Federal Advisory Committee Manufactured Housing Consensus Committee Regulatory Subcommittee Teleconference

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Notice of a Federal Advisory Meeting.

SUMMARY: This notice announces the schedule and proposed agenda for a teleconference meeting of the Manufactured Housing Consensus Committee (MHCC), Regulatory Subcommittee. The teleconference meeting is open to the public. The agenda provides an opportunity for citizens to comment on the business before the MHCC.

DATES: The teleconference meeting will be held on October 27, 2015, 1 p.m. to 4 p.m. Eastern Daylight Time (EDT). The teleconference numbers are: U.S. toll-free: 1-866-622-8461, Participant Code: 4325434.

FOR FURTHER INFORMATION CONTACT:

Pamela Beck Danner, Administrator and Designated Federal Official (DFO), Office of Manufactured Housing Programs, Department of Housing and Urban Development, 451 Seventh Street SW., Room 9166, Washington, DC 20410, telephone 202-708-6423 (this is not a toll-free number). Persons who have difficulty hearing or speaking may access this number via TTY by calling the toll-free Federal Information Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: Notice of this meeting is provided in accordance with the Federal Advisory Committee Act, 5 U.S.C. App. 10(a)(2) through implementing regulations at 41 CFR 102-3.150. The MHCC was established by the National Manufactured Housing Construction and Safety Standards Act of 1974, (42 U.S.C. 5401 *et seq.*) as

amended by the Manufactured Housing Improvement Act of 2000 (Pub. L. 106-569). According to 42 U.S.C. 5403, as amended, the purposes of the MHCC are to:

- Provide periodic recommendations to the Secretary to adopt, revise, and interpret the Federal manufactured housing construction and safety standards;
- Provide periodic recommendations to the Secretary to adopt, revise, and interpret the procedural and enforcement regulations, including regulations specifying the permissible scope and conduct of monitoring; and
- Be organized and carry out its business in a manner that guarantees a fair opportunity for the expression and consideration of various positions and for public participation.

The MHCC is deemed an advisory committee not composed of Federal employees.

Public Comment: Citizens wishing to make oral comments on the business of the MHCC are encouraged to register by or before October 23, 2015, by contacting Home Innovation Research Labs, 400 Prince Georges Boulevard, Upper Marlboro, MD 20774; Attention: Kevin Kauffman, or email to: MHCC@homeinnovation.com or by calling 1-888-602-4663. Written comments are encouraged. The MHCC strives to accommodate citizen comments to the extent possible within the time constraints of the meeting agenda. Advance registration is strongly encouraged. The MHCC will also provide an opportunity for public comment on specific matters before the Regulatory Subcommittee.

Tentative Agenda:

- October 27, 2015, from 1:00 p.m. to 4:00 p.m. Eastern Daylight Time (EDT)
- I. Call to Order and Roll Call
 - II. Opening Remarks: Subcommittee Chair and DFO
 - III. Approve Regulatory Subcommittee Minutes from the August 18-20, 2015, meeting
 - IV. New Business
 - Action Item 6—Shower, bathtub and tub-shower combination valves adjustment during installation
 - Review of HUD's SAA funding option proposals
 - V. Open Discussion
 - VI. Public Comments
 - VII. Adjourn: 4:00 p.m.

Dated: October 8, 2015.

Pamela Beck Danner,

Administrator, Office of Manufactured Housing Programs.

Public Meetings of the Invasive Species Advisory Committee

AGENCY: Office of the Secretary, Interior.

ACTION: Notice.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act, notice is hereby given of meetings of the Invasive Species Advisory Committee (ISAC). Comprised of 30 nonfederal invasive species experts and stakeholders from across the nation, the purpose of the Advisory Committee is to provide advice to the National Invasive Species Council, as authorized by Executive Order 13112, on a broad array of issues related to preventing the introduction of invasive species and providing for their control and minimizing the economic, ecological, and human health impacts that invasive species cause. The Council is co-chaired by the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Commerce. The duty of the Council is to provide national leadership regarding invasive species issues.

Purpose of Meeting: To convene the full ISAC and to provide expert input and recommendations to NISC federal agencies and their partners on invasive species matters of national importance. While in session, ISAC will review a draft of the white paper entitled, *Enhancing the Effectiveness of Biological Control Programs of Invasive Species by Utilizing an Integrated Pest Management Approach*, as proposed by ISAC's Subcommittee on Control and Management. Additional topics of discussion include a status update on the development of the next iteration of the National Invasive Species Management Plan, as well as ongoing progress under a variety of priority initiatives focused on invasive species early detection and rapid response (EDRR). The meeting agenda and supplemental materials are available on the NISC Web site at <http://www.doi.gov/invasivespecies/isac/isac-meetings.cfm>.

DATES: Meeting of the Invasive Species Advisory Committee: Wednesday, October 28, 2015: 8:30 a.m. to 5:00 p.m.; Thursday, October 29, 2015: 8:30 a.m. to 5:30 p.m.; Friday, October 30, 2015: 8:15 a.m.–12:00 p.m.

ADDRESSES: U.S. Department of Agriculture, National Agricultural Library, 10301 Baltimore Avenue, Beltsville, MD 20705. The general
