

Information about Home Energy Assessments

Want to have your home assessed for energy efficiency?

There are different methods for testing the energy efficiency of a home. The cost of testing varies, usually based on the methodology used. Regardless of the assessment method used, ask your energy assessor to show you that they are trained and certified in one of the following ways:

- Building Performance Institute Building Analyst-Professional
- Building Performance Institute Home Energy Professional Energy Auditor
- Residential Energy Services Network Home Energy Rater
- CalCERTS

Some Qualified Energy Assessors

- ✓ [Home Energy Score](#) assessment through a [Home Energy Score Partner](#)
- ✓ [Building Performance Institute Professional](#)
- ✓ [Residential Energy Network Rater](#)
- ✓ [CalCERTS](#)
