acts, the Secretary is authorized under the Housing and Community Development Amendment of 1978 to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund.

The Committee recommends that the account continue to serve as a repository of excess rental charges appropriated from the Rental Housing Assistance Fund. Although these resources will not be used for new reservations, they will continue to offset Flexible Subsidy outlays and other discretionary expenditures to support affordable housing projects.

The recommendation includes language identical to language carried in prior years, to allow surplus funds derived from rental collections which were in excess of allowable rents levels to be returned to project owners only for the purposes of rehabilitating and renovating those properties.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended by the Manufactured Housing Improvement Act of 2000, authorized the Secretary to establish Federal manufactured home construction and safety standards for the construction, design, and performance of manufactured homes.

All manufactured homes are required to meet the Federal standards, and fees are charged to producers to cover the costs of administering the Act.

The Committee recommends up to $13,000,000 for the manufactured housing standards programs to be derived from fees collected and deposited in the Manufactured Housing Fees Trust Fund established pursuant to the Manufactured Housing Improvement Act of 2000. The amount recommended is an increase of $77,000 above the fiscal year 2004 level and equal to the fiscal year 2005 request.
