HUD eLogic Model

HUD has clarified the AFFH requirements to state that the proposed activities to meet AFFH requirements (not policy priority AFFH requirements), the activities must address at least one of the following objectives:

1. Help overcome any impediments to fair housing choice related to the NOFA program;
2. Promote racially, ethnically, and socioeconomically diverse communities;
3. Promote housing related opportunities that overcome the effects of past discrimination because of race, color, national origin, religion, sex, disability, and familial status.
The General Section describes a range of activities based upon the type of program.

STEP 3: USERNAME & PASSWORD

HAVE YOU CREATED YOUR USERNAME AND PASSWORD?
To become an Authorized Organization Representative (AOR) you must create a profile. You will then create a username and password. You will need to know your organization's DUNS number to complete this process.

Create a Username and Password:
http://apply07.grants.gov/apply/OrgRegister

PURPOSE OF THIS STEP:
An AOR creates a username and password to serve as their "electronic signature" when submitting an application on behalf of their organization.

HOW LONG SHOULD IT TAKE?
Same Day, AORs will create a username and password when they submit their information.

WHY DO I NEED TO CREATE A USERNAME & PASSWORD?
To safeguard the security of your electronic information, Grants.gov requires all users to create an account to verify your identity and eligibility to submit on behalf of your organization. This process determines that someone really is who he/she claims to be.

Not until your organization's E-Business Point of Contact (E-Biz POC) has assigned you AOR rights, will you be authorized to submit grant applications on behalf of your organization.

Manage Applicant Profile (Organization AORs check registration status here)

On the Manage Applicant Profile page, you can update information in your applicant profile, such as your name, telephone number, email address, and title. If you are a grant applicant representing an organization, you can also verify if you have been granted Authorized Organization Representative (AOR) status, which is a person authorized to submit applications through Grants.gov on behalf of their organization.

The following status information is provided:

- **Approved:** You have received approval to submit on behalf of your organization.
- **AOR Request Sent:** Grants.gov sent an email notification to your E-Business Point of Contact (E-Biz POC) that you have registered to submit grant applications through Grants.gov on behalf of your organization.

Note: Once your E-Biz POC assigns the "Authorized Applicant" role to you, you will receive an email stating that you have been designated as an AOR and will be able to submit applications through Grants.gov.
STEP 4- AOR Authorization to Submit on Behalf of the Organization

- The eBusiness Point of Contact must authorize the person submitting the application to submit on their behalf.

- The eBusiness Point of Contact providing the authorization must be from the organization that is to receive the award of funds.
GRANTS.GOV

STEP 4- AOR Authorization to Submit on Behalf of the Organization

- Failure to authorize the submitter, will result in the application being rejected by Grants.gov with the error message of “not authorized”.

- A grant writer will have to be authorized by each organization’s Business POC for every application that is submitted for that organization.
STEP 4: AOR AUTHORIZATION

HAS THE E-BUSINESS POINT OF CONTACT (E-BIZ POC) APPROVED YOUR AOR STATUS WHICH ALLOWS YOU TO SUBMIT APPLICATIONS ON BEHALF OF THE ORGANIZATION?

When an AOR registers with Grants.gov, your organization's E-Biz POC will receive an email notification.

Your E-Biz POC must then login to Grants.gov (using the organization's DUNS number for the username and the "MPIN" password obtained in Step 2) and approve the AOR, thereby giving him or her permission to submit applications. When an E-Biz POC approves an AOR, Grants.gov will send the AOR a confirmation email which includes the requesting AOR's name, e-mail address and phone number.

In some cases the E-Biz POC is also the AOR for an organization. If the E-Biz POC wishes to submit applications on behalf of their organization, he or she must also complete a separate AOR profile (Step 3 of the registration process) using a different email than the one used for their E-Biz POC registration. The E-Biz POC will need to approve their AOR status by following the steps described above. Not until the E-Biz POC has approved their new "E-Biz POC + AOR" status, will they be able to submit grant applications on behalf of the organization.

When an E-Biz POC approves an AOR, Grants.gov will send the AOR a confirmation email.

Applicants must be authorized to submit the application by the eBusiness POC for the organization listed in box 8a of the SF-424, Application for Federal Assistance.

Many grant writers use their organization DUNS number rather than the DUNS for the organization they are submitting on behalf of. The application must reflect the legal name of the applicant receiving the funding.

Common Errors:

Attachment files names were over 50 characters in length and/or contained special characters or spaces, resulting in a “VirusDetect” error message.

JAVA reads these files as containing a virus and therefore applicants with attachment files with these errors received a “VirusDetect” error message and their package was rejected by the Grants.gov system.
Electronic Application Through www.Grants.gov:

For 2010 HUD retained 1-day grace period to allow applicants to cure errors.

Applications must be received by Grants.gov by the deadline date to be eligible for the grace period.
Grace Period Policy:

Applicants that have successfully uploaded their application to Grants.gov prior to the deadline, and subsequently receive a rejection notice from Grants.gov after the deadline date and time, will have a one-day grace period from the date stamp on the first Grants.gov rejection notice after the deadline, to cure the basis for the rejection and upload an application that corrects the problems cited in the rejection notice.
Grace Period Policy:

Applicants can upload the application as many times as needed to cure noted deficiencies within the one-day grace period.

Applicants that do not understand the error messages received in the rejection notice should immediately contact the Grants.gov Help Desk so they can get assistance in clearing the problem.
Grace Period Policy:

Applications uploaded and received by Grants.gov after the deadline date and time for which there is no prior rejection notice in the Grants.gov system logs will be considered late and will not be rated and ranked or receive funding consideration. Failure to successfully upload the application to Grants.gov by the deadline date and time does not qualify for the grace period as described above.
Grace Period Policy:

Applications receiving a rejection notice due to the funding opportunity being closed will not be provided the one day grace period to correct the “opportunity closed” deficiency or any other basis for rejection because the applicant missed the deadline date and time and therefore does not qualify for the grace period as described above.
**Grace Period Policy:**

If an application is uploaded during the grace period and is subsequently rejected after the grace period ends, the applicant will not be afforded additional time to correct the deficiency(ies) noted in the rejection notice.
Electronic Application Through www.Grants.gov:

Applications received by Grants.gov, including those received during the grace period, must be validated by Grants.gov to be rated or ranked or receive funding consideration by HUD. HUD will use the date and time stamp on the Grants.gov system to determine dates when the grace period begins and ends.
Electronic Application Through www.Grants.gov:

Neither HUD nor Grants.gov will be responsible if email messages are not received at the address listed in the registration process. Applicants must also ensure that their email systems will accept messages from Grants.gov. Applicants are responsible for monitoring their email messages. Messages from Grants.gov come from Support@Grants.gov
Tips for a Successful Submission:

Submit the application at least 24-48 hours in advance of the deadline.

Almost all the QAR requests came from applicants that started submission late in the day on the due date and faced busy servers, password/ID issues or upload issues due to the applicant's anti-virus or firewall software.
Tips for a Successful Submission:

Grants.gov help desk open 24/7 except federal holidays.

If having issues submitting call the help desk and get a ticket number before you call HUD.

Read the Grants.Gov FAQs carefully to avoid errors that are within your control. Updates have occurred on Grants.gov for Security, Adobe Reader, etc.
Tips for a Successful Submission:

The SF424 form requires a 9 digit zip code

Applicants are advised to open all documents and attachment files and to scroll to the end of the document to make sure the files are the final versions of the application and complete.
Tips for a Successful Submission:

DO NOT Zip files within Zip Files- HUD cannot open zip files zipped within a zip file.

Follow the General Section for file software and file name requirements.
Tips for a Successful Submission:

Check the registration status on Grants.gov to make sure that the AOR is fully registered under the DUNS number for the applicant listed in box 8a of the SF-424. Application for Federal Assistance.
The Logic Model form is used to capture information on housing search assistance activities and outcomes for FUP participants.

The information is being used to assist in the set-up of the HUD performance webpage.

THE HUD eLOGIC MODEL

Are the numbers realistic?

When “new” or “other” was used for either a service or outcome, was “other“ appropriately defined and was the unit of measure appropriate.

Performance data measures a grantee’s progress towards meeting their established benchmarks and outcomes.

Are there appropriate associations between services and outcomes?
Management questions provide unduplicated counts
