9902 Projection

- Provides for entry of allocations for sections 8 & 9 of the 9902 form. Other 9902 sections (3 – 7 and 10) not included in projections.
- Provides entry for each fiscal year of the funding period.
- The fiscal year allocations will display on 9902 for FY the 2015 and after.

2014 Projections

- Currently 9902 projections are submitted manually on paper and not recorded in HCS.
- The 2014 grants have a funding period that includes the first two quarters of 2015.
- The projection screens for the 2014 grants will allow agencies to enter their actual figures for 2014 and project for 2015.
- This will allow for the total projection figures to be recorded in HCS, and the 2015 projection figures to display on the 9902s.
- Projection figures entered for FY 2014 will not display on the 2014 9902s.

9902 Projection

- Indicates the status of the projection- initially it will display as “NOT ENTERED”.
- Totals up the entries for each year; displays total for each FY at top of screen.
- Validates that the total projection is not less than the Total Negotiated Projection on the budget allocation.

9902 Projection – Submit to HUD

When the agency user Submits to HUD, the projection:

- Checks to make sure the total projection is equal to or greater than the total negotiated projection. If not, it displays an alert and saves as draft. This check is disabled for the 2014 NOFA.
- Displays a message to the user indicating to notify their HUD GTR that the projection has been submitted and ready for approval.

9902 Projection – Submit to HUD

Once successfully submitted to HUD:

- Status changed to Submitted.
- Last Updated date is updated.
- The date submitted is updated.
- The user that submitted is updated.
- HUD GTR will review the projections and approve or contact the agency as necessary.

Demographic Reporting: FAQs

- **Question: How do you report the 9902 demographic data and client record for a household or one-on-one counseling activity that includes more than one person?**
- Answer: When a household includes more than one person, generally the demographic data for the individual completing the intake process is identified for all demographic information recorded for that household. Client households should be encouraged to self-identify the one race and ethnicity that will be recorded, along with the remaining demographic information.
- **Question: Our fair housing Workshops are typically comprised of groups of realtors, apartment management agencies and co-op and condo boards. It is virtually impossible to collect all the data listed on form 9902; is there any way to just list the number of individuals receiving training?**
- Answer: The agency must collect the demographic data for all education participants. HUD recommends the agency devise a simple, anonymous form for households to complete at the beginning of the class.

Demographic Reporting FAQs

- **Question: If a housing counseling agency teaches a class to a large group of people, must the agency collect demographic data for the participants? For example, if the agency provides a homebuyer education workshop to 100 participants.**
- Answer: The agency must collect the demographic data for all education participants. HUD recommends the agency devise a simple, anonymous form for households to complete at the beginning of the class.

Section 8: Group Education FAQs

- **Question: Many agencies incorporate fair housing and predatory lending/loan scam/ or other fraud prevention workshop into their financial literacy, homebuyer or other types of workshops. How can this be reported in the 9902**
- Answer: When combining different subject matter into one workshop, choose the predominant subject of the workshop for reporting in Section 8 of the 9902.

- **Question: Regarding Sections 8 and 9, if a client is participating in a rental workshop and also receives one-on-one counseling on rental topics, will we report them under both sections, or only 1?**
- Answer: The HUD-9902 is an important tool that HUD uses to track the Housing Counseling Program, and the data collected through the form is critical to demonstrating the program's impact to Congress and other industry stakeholders. The form is designed to capture unique counseling services, so that a household receiving two unique services (e.g. rental counseling on one occasion and pre-purchase counseling on another occasion) would be counted as two 9902 counseling households. On the other hand, a household receiving one counseling service over the course of multiple counseling sessions would be counted as one 9902 counseling household because the household only received one unique counseling service.
- If a household receives both group education and one-on-one counseling, then the household received two unique counseling services and the agency will report the household twice - once in Section 8 for the group education service and once in Section 9 for the one-on-one counseling service. The agency will also report the household in Section 10.a and in any other applicable Section 10 categories. The household may have more than one outcome to report in Section 10.
- Since the household was counted twice (in Sections 8 and 9), household demographics should also be counted twice in Sections 3 through 7.

FY 2015 9902 – Section 9

Section 9: Households Receiving One-on-One Counseling, by Purpose

- Replaces the current section 7 - Numbers of Clients Counseled, by Purpose of Visit and Results

Section 9: One-On-One Counseling FAQs

- **Question: Why are Home Maintenance and Financial Management listed as one and not two different counseling services?**
- Answer: The name of this counseling category corresponds with the HUD-approved counseling types outlined in HUD's housing counseling regulations in 24 CFR Part 214. This category is similar to Section 7c on the previous version of Form HUD-9902, except that a separate category has now been created for HECM Counseling. Post purchase Counseling can now be included in Section 9d, Home Maintenance and Financial Management for Homeowners (Non-Delinquency Post-Purchase). Home Maintenance and Financial Management are typical non-delinquency post-purchase topics. As indicated on the new 9902 instructions and in the regulations, this category is designed to capture post-purchase counseling on topics such as escrow funds, budgeting, refinancing, home equity, home improvement, utility costs, energy efficiency and rights and responsibilities of home owners.

Section 9: One-On-One Counseling FAQs

- **Question: Why doesn't the new form contain Post-Purchase Counseling?**
- Answer: One-on-One Post-purchase counseling should be recorded in Section 9d, Home Maintenance and Financial Management for Homeowners (Non-Delinquency Post-Purchase). Home Maintenance and Financial Management are typical non-delinquency post-purchase topics.
- **Question: Please explain how Fair Housing Complaints should be reported.**
- Answer: Counseling provided to a household with a Fair Housing Complaint should be reported in Section 9 under the applicable type of counseling (e.g. a renter with a Fair Housing Complaint would be reported as receiving Rental Topics counseling). That same household would also be reported in Section 10.b. (Households that received information on fair housing, fair lending and/or accessibility rights), and in any other applicable Section 10 categories, to show the impact and scope of that counseling.

FY 2015 9902 – Section 10

Section 10: Impact and Scope of One-on-One Counseling Services

- New Section
- Reporting of the impacts and scopes of the one-one-one counseling services.
- Each one-on-one counseling activity reported in section 9 can have multiple impacts.

FY 2015 9902 – Section 10

Section 10: Impact and Scope of One-on-One Counseling Services

10. Impact and Scope of One-on-One Counseling Services	
a.	Households that received one-on-one counseling that also received group education services.
b.	Households that received information on fair housing, fair lending and/or accessibility rights.
c.	Households for whom counselor developed a sustainable household budget through the provision of financial management and/or budget services.
d.	Households that improved their financial capacity (e.g. increased discretionary income, decreased debt load, increased savings, increased credit score) after receiving Housing Counseling Services.
e.	Households that gained access to resources to help them improve their housing situation (e.g. down payment assistance, rental assistance, utility assistance, etc.) after receiving Housing Counseling Services.
f.	Households that gained access to non-housing resources (e.g. social service programs, legal services, public benefits such as Social Security or Medicaid, etc) after receiving Housing Counseling Services.

FY 2015 9902 – Section 10

Section 10: Impact and Scope of One-on-One Counseling Services - continued

10. Impact and Scope of One-on-One Counseling Services	
g.	Homeless or potentially homeless households that obtained temporary or permanent housing after receiving Housing Counseling Services.
h.	Households that received rental counseling and avoided eviction after receiving Housing Counseling Services.
i.	Households that received rental counseling and improved living conditions after receiving Housing Counseling Services.
j.	Households that received prepurchase/homebuying counseling and purchased housing after receiving Housing Counseling Services.
k.	Households that received reverse mortgage counseling and obtained a Home Equity Conversion Mortgage (HECM) after receiving Housing Counseling Services.

FY 2015 9902 – Section 10

Section 10: Impact and Scope of One-on-One Counseling Services - continued

10. Impact and Scope of One-on-One Counseling Services	
l.	Households that received non-delinquency post-purchase counseling that were able to improve home conditions or home affordability after receiving Housing Counseling Services.
m.	Households that prevented or resolved a mortgage default after receiving Housing Counseling Services.

Section 10: Impact and Scope FAQs

- **Question: Can a counseling activity have more than one impact or outcome (Section 10)?**
- Answer: Yes. One type of counseling may have multiple impacts during the continuum of counseling. Section 10 is the only section in which the total does not have to be the same as the other sections. The section total formula is: Section 3 Total = Section 4 Total = Section 5 Total = Section 6 Total = Section 7 Total = (Section 8 Total + Section 9 Total).
- **Question: We plan to review our current individual appointment and classes intake forms to make sure we can collect the new information listed on the new 9902. Do we report outcomes for classes too, or just for individual counseling appointments?**
- Answer: Housing Counseling Agencies will only report outcomes for one-on-one counseling activities in Section 10 of the new 9902.

Section 10: Impact and Scope FAQs

- **Question: Section 10, Item a. tracks households that received one-on-one counseling and also received group education services. But Section 10 does not have an option for just one-on-one without group education services. Where do we record one-on-one without group education services?**
- Answer: Agencies will record a household receiving one-on-one counseling services in the appropriate category in Section 9. In Section 10, Impact and Scope of One-on-One Counseling Services, Item a. is the only item that records the impact of a household that receives both one-on-one counseling and group education services. Counselors will record one-on-one counseling impacts for all other households in Section 10, Items b. through m.

Section 10: Impact and Scope FAQs

- **Question: I heard that HUD will include Financial Counseling/Coaching as a service and in their program and outcome tracking. Is this no longer the case?**
- Answer: HUD defines housing counseling as counselor to client assistance that addresses unique financial circumstances or housing issues and focuses on ways of overcoming specific obstacles to achieving a housing goal. Financial management and/or budget services can be an important component of housing counseling, but the primary focus of housing counseling is on achieving a housing goal. Therefore, households receiving financial management and/or budget services should be reported in Section 9 under the applicable type of counseling (e.g. a renter receiving financial management and/or budget services would be reported as receiving Rental Topics counseling). That same household would also be reported in Section 10.c. (Households for whom counselor developed a sustainable household budget through the provision of financial management and/or budget services), as well as any other applicable Section 10 categories, to show the impact and scope of that counseling.

Section 10: Impact and Scope FAQs

- **Question: Where would a client who received HECM counseling & decided not to obtain a HECM fall under Section 10?**
- Answer: Possible outcomes could be 10e and/or 10f.
- **Question: Since HUD sponsors the NFMCP reporting, and it reports on the delinquent outcomes, will that reporting change to correspond to the new lack of outcomes?**
- Answer: Congress authorized NeighborWorks America to run the NFMC program and set statutory requirements for its reporting. HUD does not administer the NFMC program. NeighborWorks America runs NFMC and manages its reporting requirements.
- **Question: How do we measure Section 10.c., Households for whom counselor developed a sustainable household budget through the provision of financial management and/or budget services?**
- Answer: To measure this, it either happened or it didn't – the counselor either developed a budget or they didn't.

Section 10: Impact and Scope FAQs

- **Question: And how do we define “sustainable”?**
- Answer: HUD’s definition of sustainable is “capable of being sustained”. In other words, it is a realistic and do-able budget for that client. As further support for accomplishing this impact, Housing Counselors should include notes in their client files describing the work they did to develop a sustainable budget with the client and/or include in the file a copy of the budget they developed.

- **Question: What constitutes “gaining access” on Section 10.e., Households that gained access to resources to help them improve their housing situation?**
- Answer: Simply providing the client a flyer or referring them to another entity is not adequate. HUD’s intent of gaining access meant that the counselor assisted the client with an application for a resource or provided referral information about a resource and confirmed that the client made application for the assistance available from the resource.

Section 10: Impact and Scope FAQs

- **Question: Many of our pre purchase counseling sessions are a one-time event, and how will the counselor know an impact to record?**
- Answer: The housing counseling handbook requires that agencies must make a reasonable effort to have follow-up communication with the client, to assure that the client is progressing toward his or her goal. Although it will be necessary to conduct follow up to determine if any of the impacts have occurred, it is possible that some impacts may occur at the time of a pre-purchase session; e.g., 10b. Households that received information on fair housing, fair lending and/or accessibility rights.
- **Question: What constitutes an impact on Section 10.g., Homeless or potentially homeless households that obtained temporary or permanent housing.**
- Answer: To count this impact, the counselor needs to know that the client actually obtained temporary or permanent housing.

Section 10: Impact and Scope FAQs

- **Question: Often times the agency does not know an impact or outcome for mortgage delinquency/default resolution counseling until the following fiscal year. Are agencies able to record that impact on the 9902?**
- Answer: An impact *can* be counted the following year if additional counseling is provided to the client in that year. This is not a new direction on the 9902, but has been policy in place for some time.
- Overall, the counselors will need to use their best judgment when deciding what constitutes an impact or outcome, and the client file should support the impact(s) or outcome(s) selected.

Section Total Validation

- HCS currently validates the section totals are equal using the formula:

$$\text{Section 3} = \text{Section 4} = \text{Section 5} = (\text{Section 6} + \text{Section 7})$$

- Validation will be changing to:

$$\text{Section 3} = \text{Section 4} = \text{Section 5} = \text{Section 6} = \text{Section 7} = \\ (\text{Section 8} + \text{Section 9})$$

- Section 10 is not included in the section total validation.

Grant Reporting FAQs

- **Question: We currently are the parent of a number of sub agencies that require their own 9902. Will the new 9902 allow the transmission of the columns “HUD Housing Counseling Program Grantees Only” or will we have to continue manually updating each location after transmission?**
- HUD uses the data collected through the two “HUD Housing Counseling Program Grantees Only” columns to track housing counseling grant activity and to demonstrate the impact of HUD’s housing counseling program appropriation to Congress and Stakeholders. To do so, HUD collects two columns from grantees on counseling activities specifically attributed to HUD counseling grant funds – “Actual, to date” data, and “Annual Projection” data. The “Actual, to date” column collects data on clients whose counseling services were charged to a HUD housing counseling grant. And the “Annual Projections” column collects targets that grantees set for the number of clients they will serve using HUD grant funds. These targets are set when grantees receive a new HUD grant, and they do not need to be updated each quarter like the rest of the 9902 data. Once set, the projections will only need to be updated under extenuating circumstances with prior approval from HUD.

Grant Reporting FAQs

- Our plan is to include the **“Actual, to date”** column in the new instance of the Agency Reporting Module (ARM) that is being developed to start with the FY 2015 1st quarter reporting. Once the Client Management Systems (CMS) are updated, they will be able to submit this data via ARM so that agencies will not have to manually enter it. This will only apply to submissions for 2015 and beyond. Any submissions for periods previous to that will have to have the HUD attributed data entered manually.
- The “Annual Projections” column will not be submitted through ARM. When receiving a new HUD grant, these annual projections will be manually entered by the grantee in HCS and then approved by HUD. Once it is entered in HCS, the projection will display on the grantee’s 9902 only. HUD is not requiring annual projections from sub-agencies that receive an allocation from a grantee.

Grant Reporting FAQs

- **Question: Is the HUD Housing Counseling grant the only grant our agency will report on the 9902? If a HUD counseling agency has a HUD homeless grant, it is not to be reflected under the counseling grant category since it is not a counseling grant?**
- Answer: You are correct. The only grant your agency will report in the HUD Grant column on the 9902 is the Comprehensive Housing Counseling Grant (and if we have any housing counseling supplemental grants in the future, those will be added as other columns to the 9902).

Grant Reporting FAQs

- As a sub-grantee, your agency will be responsible for submitting 9902 household numbers for counseling services your agency charges to the HUD Housing Counseling Grant in the “**Actual, to date**” column. Total data submitted by all sub-grantees will display in the grantee’s consolidated 9902 so the grantee can monitor its progress toward meeting the annual projections.
- **Question: HUD funded client records are identified using the activity type id for a specific NOFA/grant type. How do you report HUD funded activities if 1 activity has multiple funding sources and is partially HUD Funded?**
- **Answer:** If an activity is partially funded by HUD (excluding NFMC grants), the agency may count the household in the HUD funded activity column. If the agency deems it necessary to bill multiple funding sources for the same client, the agency is required to keep detailed records to document that no multiple funding sources have been billed for the same service.

Grant Reporting FAQs

- **Question: We are a LCHA but currently we are a sub-grantee of an intermediary for our HUD grant. On the new 9902 for the columns for Grant Funds and Annual Projection will we be entering this data for our agency or will the intermediary (Grantee) be submitting that data?**
- Answer: The grantee (in this case, the intermediary parent organization) is responsible for setting the annual projections for the target number of households to be served using the HUD grant funds. The grantee submits one set of projections representing the total target number of households whose counseling services will be charged to the HUD grant, including counseling services to be charged by all sub-grantees receiving funds under the HUD grant. These projections will only display on the grantee's consolidated 9902, which is an aggregate report of all the individual 9902s submitted by sub-grantees. Projections will not display on sub-grantees' individual 9902s, nor will sub-grantees need to enter any projections specific to their individual sub-grant in HCS.
