

# President's Task Force on Environmental Health Risks and Safety Risks to Children

<https://ptfceh.niehs.nih.gov/>

OLHCHH contributed extensively to a new Federal report., Key Federal Programs to Reduce Childhood Lead Exposures and Eliminate Associated Health Impacts, that compiles Federal efforts currently planned or underway to understand, prevent, and reduce various sources of lead exposure to children. Pages 55-58 describe the lead-based paint hazard control and lead hazard reduction demonstration grant programs and their contributions. The Lead-Safe Homes, Lead-Free Kids Toolkit is also highlighted. Building on these current lead safety programs, the toolkit establishes specific goals for HUD.

Lead exposure in children, particularly in minority and low-income children who often are disparately exposed, is a priority of the President's Task Force on Environmental Health Risks and Safety Risks to Children. The Task Force, which comprises representatives of 17 federal agencies and offices. This report provides a starting point for the development of a comprehensive federal lead strategy that will identify steps needed to further reduce lead exposures to children in the United States. It also provides a basis for increased coordination and collaboration among federal agencies to further protect the nation's children.

The screenshot shows the homepage of the President's Task Force on Environmental Health Risks and Safety Risks to Children website. At the top, it identifies itself as an official website of the United States Government. The main navigation includes links for About, Activities, Features, Resources, and News & Events. A large banner image shows a group of diverse children running happily in a grassy field. Below the banner, there are three main content sections: 'News & Events' with two recent items (one from January 24 and one from April 6), 'Featured Activity' titled 'Climate Change and Children's Health Policy Roundup', and 'Featured Resource' titled 'Key Federal Programs to Reduce Childhood Lead'. Each section includes a brief description and a 'Read More' or 'Submit your story here' link. At the bottom of the page, there are links for Accessibility, Contact Us, Disclaimers, Freedom of Information Act, and Privacy Policy, along with a 'Join Our Email List' button and a note that the website is hosted by the National Institute of Environmental Health Sciences.
