Each bid on its face shall be firm, unconditional, responsive, fixed in one amount certain, and not in the alternative. Special conditions, alterations, or deletions will render a bid non-responsive. The terms of the Foreclosure Sale are those set out in this Invitation and Attachments. Lack of an Earnest Money Deposit, as required by this Invitation, will be cause for bid rejection.
2. **SALE TO HIGHEST QUALIFIED BIDDER:** Sale of this Project will be awarded to the highest bidder determined to be qualified to purchase the Project. The defaulting owner of the Project, or any affiliate thereof, will not be permitted to bid.

8. **While care has been exercised to assure accuracy, all information provided is solely for the purpose of permitting parties to determine whether or not the Project is of such type and general character they are interested in purchasing. HUD makes no warranty as to the accuracy of the information. 9. **OUTSTANDING ENCUMBRANCES THAT SURVIVE FORECLOSURE:** By entering its bid, the High Bidder agrees to assume all responsibility for paying all outstanding encumbrances and expenses, including, but not limited to, taxes, assessments, utility bills and any liens not extinguished by the foreclosure. 3. QUALIFICATION, ACCEPTANCE, REJECTION OF BID:

a. Required Bidder Qualifications to Purchase Project:

- i. It is the objective of the Department's multifamily foreclosure process to transform troubled and distressed multifamily properties into viable, long-term affordable rental housing resources. To accomplish this objective, the Department will only award a HUD-foreclosed property to a High Bidder that has the financial capacity and demonstrated experience (approximately five (5) years) of successfully owning, managing and transforming distressed and troubled multifamily properties as viable, low-income housing resources.
- ii. The Department has the discretion to evaluate, starting with the High Bidder and proceeding in descending order, if necessary, the bidder's experience, qualifications and capacity to purchase the Project based on a review of the documentation described below, information independently obtained and verified by HUD, and the Post-Bid Document Submittals required herein. The documentation must demonstrate that the bidder owns (or has owned) and is successfully managing and operating (or has successfully managed and operated) properties of similar size and characteristics (including problematic complexities) as the Project being sold. The documentation will be used by HUD to determine whether the bidder has the financial capacity and demonstrated experience to acquire and successfully transform the Project into a long-term, viable rental housing resource.
- iii. HUD may, in its sole discretion, accept or reject any bid submitted for the purchase of the Project. The review and approval of the Previous Participation Certification (Form HUD-2530) is a requirement for the purchase of the Project. However, Previous Participation Certification approval is only one aspect of HUD approval of the bidder's qualifications.
- iv. Based on HUD's review of the documentation submitted, as well as any additional information independently obtained and verified by the Department, HUD will determine whether the bidder has the requisite experience, qualifications and financial capacity to purchase the Project. This determination is within HUD's sole and absolute discretion. If HUD determines that the bidder does not have the experience, qualifications and/or financial capacity to purchase the Project, HUD will reject the bid and proceed to the next highest bidder pursuant to the terms of the Invitation.
- v. In the event that HUD rejects a bid, HUD will return the bidder's earnest money deposit, provided the bidder has not failed to meet time limits required to submit documentation, or made any misrepresentation or material omission(s) in the bidder's submission of documentation.

If the bidder fails to properly submit all required documentation within the required time limit or HUD

determines that the bidder misrepresented his or her experience, qualifications, or financial capacity, the Earnest Money Deposit will be forfeited and retained as liquidated damages. HUD may seek any and all additional remedies.

- vi. HUD may require the High Bidder to obtain the services of a qualified multifamily project management firm. Management acceptable to HUD (see paragraph 5 below) must be approved prior to Closing.

b. Bidder Approval:

- i. If HUD determines that the High Bidder is qualified, the High Bidder will be confirmed as and identified as the Purchaser;
- ii. If the high bid is rejected due to HUD's determination that the High Bidder is not qualified to purchase the Project, HUD will notify the High Bidder in writing;
- iii. If HUD rejects the High Bidder, HUD may in its sole discretion elect to contact the Second High Bidder, and/or succeeding bidders as bidders withdraw or do not qualify, to purchase the Project. If contacted by HUD, the Second High bidder or succeeding bidder will be offered the opportunity to purchase the Project and will be given twenty-four (24) hours to submit the earnest money deposit and execute the Acknowledgment, and thereby will be deemed as the High Bidder. HUD will review the bidder's Post-Bid Document Submittals, which must be submitted within the same timeframes detailed in Section 4 of this Invitation beginning from the date the Acknowledgment is executed, in order to determine if the bidder is qualified to purchase the Project;
- iv. HUD's notification of rejection due to lack of qualifications, if applicable, shall be deemed to be given when mailed to the individual that executed the Acknowledgment; and
- v. The written rejection of the bid will be made as promptly as possible and generally within thirty (30) days after the date of the Foreclosure Sale.

4. EARNEST MONEY DEPOSIT: All bidders must submit the Earnest Money Deposit to the Foreclosure Commissioner at the start of the Foreclosure Sale. Immediately following the Foreclosure Sale the Earnest Money Deposit will be returned to all but the High Bidder. Interest will not be paid on Earnest Money Deposits.

- a. If HUD determines that the High Bidder is eligible to bid, qualified to own and manage the Project, its bid is acceptable and the High Bidder complies with the requirements of this Invitation, the Earnest Money Deposit will be credited against the bid price at Closing.
- b. If the bid amount is unacceptable, the bidder's Earnest Money Deposit will be refunded.
- c. If, during the review of the High Bidder, it is found that the High Bidder has made any misrepresentation or material omission(s) in the bidder's submission of evidence of eligibility and/or documentation, the Earnest Money Deposit will be forfeited.
- d. If the High Bidder is determined not to be qualified to purchase the Project **and** the High Bidder has complied with the requirements of this Invitation the Earnest Money Deposit will be refunded.
- e. If the High Bidder has failed to comply with the provisions outlined in this Invitation, the Earnest Money Deposit will be forfeited.

5. REVIEW OF PROJECT MANAGEMENT: HUD will review the statements and Post-Bid Document Submittals to determine, in its sole discretion, if the proposed management entity has the necessary qualifications to operate, manage, and/or administer the type and nature of the project being offered for sale. HUD may elect to discuss Project management plans after submission of the Post-Bid Document Submittals by the High Bidder. HUD reserves the right to reject the bid of any bidder and retain the Earnest Money Deposit, if the High Bidder does not provide management acceptable to HUD.

6. CLOSING DATE REQUIREMENT: The date and place for Closing will be determined by HUD and the Foreclosure Commissioner and occur within the time period specified in the Acknowledgment (Attachment B).

PROJECT-BASED SECTION 8

A Housing Payment Contract (HAP) will be provided to the Purchaser prior to Closing. Predicated on the availability of funds, assistance will be available for eligible residents in 36 units at the Project. Bidders are cautioned that payments under the HAP Contract may not start for qualifying units immediately after Closing. However, HAP units must meet HUD's Physical Condition Standards within 180 calendar days of Closing. HUD will inspect these units to ensure compliance. Bidders are urged to review the Project-Based Section 8 Assistance Rider, the HAP Contract, and Use Agreement and Riders to obtain a complete understanding of the requirements and conditions of the Foreclosure Sale. Prior to receipt of the subsidy payments, Purchaser may not charge eligible tenants, who are slated to receive Section 8, more than the amount of Total Tenant Payment the tenant would be required to pay under the Section 8 Program. In addition, some tenants may have to be temporarily relocated due to HUD required repairs. HUD has already accounted for these and other costs in this Project's disposition process. Therefore, HUD is not obligated to make any monetary adjustments to cover any costs that may be incurred by the Purchaser. Bidders should compute their bids accordingly.

However, if the Closing is held prior to the expiration of an Extension Period, the prorated amount of the Extension Fee, for the unused portion of the Extension Period, shall be credited toward the amount due from the Purchaser at Closing.

11. BIDDER RESTRICTIONS:

In addition, HUD does not represent or warrant the number and occupancy of revenue producing units, or any factor bearing upon the value of the Project or otherwise.
 - b. High Bidder acknowledges that the bid price set forth in this Acknowledgment is based on its own evaluation of the Project and not upon any representations by HUD. High Bidder's failure to inspect, or to be fully informed as to any factor bearing upon the valuation of the Project, shall not affect the liabilities, obligations or duties of HUD, nor be a basis for termination of this Foreclosure Sale or for the return of any Earnest Money Deposit or Extension Fees paid to HUD.
13. RISK OF LOSS AND RIGHTS OF RESCISSION: In the event of any substantial damage to the Project prior to Closing by any cause including, but not limited to, fire, flood, earthquake, tornado and significant vandalism other than willful acts or neglect, HUD, in its sole discretion, may negotiate with the High Bidder for a reduction in the bid price corresponding to the estimated amount of damages. *Such amount shall be added to the Repair requirements, Attachment E, included in the Invitation.* If a bid price reduction cannot be negotiated or if the High Bidder and HUD are unable to agree on the amount by which the bid price should be reduced or on the amendment to the Repair requirements, High Bidder may withdraw the bid. In such case, the Earnest Money Deposit and any Extension Fees paid will be returned, unless there is cause to retain the Earnest Money Deposit based on breach of the Invitation and/or Acknowledgment.

16. ANTI-COLLUSION CERTIFICATION:

 - iii. No attempt has been made or will be made by the bidder to induce any other bidder to submit or not to submit a bid price for the purpose of restricting competition.

ATTACHMENT C
FORECLOSURE SALE USE AGREEMENT

This Agreement is entered into by _____ ("Grantee") and the Secretary of Housing and Urban Development ("Secretary" or "HUD").

WHEREAS, pursuant to the provisions of the Multifamily Mortgage Foreclosure Act, 12 U.S.C. Sections 3701 et seq. (the "Act"), and the Department of Housing and Urban Development's regulations thereunder at 24 C.F.R. Part 27, the Secretary has elected to exercise the nonjudicial power of sale provided under the Act, or pursuant to a judicial foreclosure the Secretary has elected to apply Section 367(b) of the Act, with respect to Valley View Apartments, HUD Project No. 092-EH043, (the "Project") a legal description of which is attached as Exhibit "A"; **and**

WHEREAS, pursuant to the Act and to provisions of 12 U.S.C. Section 1715z-11a, the Secretary has authority to impose certain use restrictions, as set forth in this Agreement, on the Project subject to a mortgage held by the Secretary that is sold at foreclosure to a purchaser other than HUD; **and**

WHEREAS, by Deed executed this ___ day of _____, 20___, by _____, the Project has been conveyed to the Grantee; **and**

NOW THEREFORE, in consideration of the mutual promises set forth herein and in further consideration of the sale of the Project to the Grantee, the parties agree as follows:

1. **TERM OF AGREEMENT:** This Agreement shall be in effect for twenty (20) years from the date of this Agreement (the "Restricted Period".) During the Restricted Period the Project must be maintained as affordable rental housing.
2. **CONVEYANCE:** During the term of this Agreement, any Conveyance of the Project must have the prior written approval of HUD, or such Conveyance will be deemed to be null and void, and a default will exist under this Agreement. Conveyance is defined as any sale, assignment, transfer, creation of a leasehold estate in excess of one (1) year, or any other legal or equitable conveyance or transfer of the Project or an interest therein, or any legal or equitable transfer of an interest in the Grantee or any entities that may comprise the Grantee. Without limiting the foregoing and not intending to be all inclusive, a merger, conversion, share exchange, or exchange of corporate or partnership interests is deemed to be a Conveyance, which requires the prior written approval from HUD.

The preceding provisions shall be applicable and in full force and effect notwithstanding that any applicable statutory law or case decision provides that any such merger or conversion or share (or interest) exchange, or leasehold estate transaction or other type of Conveyance does not constitute or involve the occurrence of a "transfer" or "assignment" of the Project, any of the assets related thereto, or an interest in the Grantee.

Any request for HUD's approval of Conveyance must include the entity and all principals obtaining Previous Participation Certification approval (clearance), submission of a signed Certification of Substantial Compliance, and a signed Agreement to Abide by Deed Restrictions. HUD's approval of a Conveyance will be based on information provided in written statements of how the Grantee, or any subsequent Grantee, in consideration of any and all existing use restrictions, will:

- a. Implement and/or continue to comply with all existing use restrictions;
- b. implement sound financial and physical management program;
- c. respond to the needs of the residents and work cooperatively with resident organizations;
- d. provide adequate organizational staff and resources to manage the Project; and
- e. provide evidence of a minimum of five (5) years' substantive experience owning and managing subsidized multifamily properties with Project-Based Section 8 assistance.

The approval of a Conveyance is within the sole discretion of HUD.

3. **CONDITION OF UNITS:** The Grantee shall comply with the Physical Condition Standards and inspection requirements of 24 CFR Part 5, Subpart G, including any changes in the regulation and related Directives. In addition, the Grantee shall comply with HUD's Physical Condition Standards of Multifamily Property of 24 CFR Part 200, Subpart P, including any changes in the regulation and related Directives.
4. **RENTAL RATES:** A Housing Assistance Payment (HAP) Contract was executed on the date of this Agreement for 36 units (HAP units). The HAP Contract shall govern the rent schedule, the amount of the Section 8 to be paid, and eligibility requirements for HAP units during the term of the HAP, of any extension thereof, until such time as HUD elects not to renew the HAP due to budget appropriations or default with the terms of the HAP Contract by the Owner. If HUD elects not to renew the HAP due to budget appropriations, the rent schedule and tenant eligibility will be controlled by the Affordability of Units provision, Rider 3.

For Projects where less than 100% of the units are to be covered by the HAP Contract, the rent schedule and tenant eligibility for units not covered by a HAP Contract are controlled by the Affordability of Units provision attached to this Agreement.

5. **PROJECT MANAGEMENT:** HUD reserves the right to approve management for the Project during the term of this Agreement. Any proposed property manager must demonstrate a minimum of five (5) years substantive experience managing multifamily properties of similar size and complexity. If the Project has project-based Section 8 assistance, any proposed property manager must demonstrate a minimum of five (5) years' experience managing multifamily properties with project-based Section 8 assistance.

Any change in management of the Project must have HUD's prior written approval. Any request for HUD's approval of the proposed Grantee's/owner's management of the Project must include the entity and all principals obtaining Previous Participation Certification approval (clearance) and the proposed management agent for the Project must submit for HUD's review and approval the following documents/forms:

- Management Entity Profile (Form HUD-9832),
- Project Owner's Certification for Owner-Managed Multifamily Housing Projects (Form HUD-9839A), **or**
- Project Owner's/Management Agents Certification for Multifamily Housing Projects for Identity-of-Interest (Form HUD-9839B).

(Only one of the forms 9839 A or B will be required for management certification)

6. **SUBJECT TO EXAMINATION:** The Project shall at all times,
- a. Be maintained in decent, safe and sanitary condition and in good repair to the greatest extent possible,
 - b. Maintain full occupancy to the greatest extent possible,
 - c. Be maintained as rental housing for the term of this Agreement,
 - d. Be subjected to periodic HUD inspections or inspections under REAC protocol (24 C.F.R. parts 5 and 200).

The Owner will be obligated to provide audited annual financial statements to HUD (24 C.F.R. parts 5 and 200.)

At the request of the Secretary, Grantee must supply evidence by means of occupancy reports, physical condition reports, reports on operations, or any evidence as requested to ensure that the above requirements are being met.

7. **UNIT NUMBER OR USE CHANGE:** Changes to the use, number, size, or configuration of residential units in the Project; e.g., apartment units, beds in a care facility, from the use as of the date of this Agreement, must receive the written prior approval of HUD.
8. **NON-DISCRIMINATION REQUIREMENTS:** The Grantee will comply with the provisions of all federal, state, or local laws prohibiting discrimination in housing.
9. **HAZARD INSURANCE:** Hazard insurance shall be maintained in an amount to ensure that the Grantee is able to restore the Project so that it meets the rental housing requirements described in this Agreement after restoration.
10. **DESTRUCTION OF PROJECT:** In the event that any, or all, of the Project is destroyed or damaged by fire or other casualty, the money derived from any insurance on the Project shall be applied to rebuild or replace the Project destroyed or damaged, unless the Secretary gives written approval to use insurance proceeds for other purposes.
11. **DEMOLITION OF PROJECT:** The Grantee will not demolish any part of the Project or withdraw any part of the Project from use (except as temporarily necessary for routine repairs), without the prior written approval of HUD.
12. **REMEDIES FOR NONCOMPLIANCE:** Upon any violation of any provision of this Agreement by the Grantee, HUD may give written notice thereof to the Grantee by registered or certified mail, to the address stated in this Agreement, or such other address as subsequently, upon appropriate written notice thereof to the Secretary may be designated by the Grantee as its legal business address. If such violation is not corrected to the satisfaction of the Secretary within thirty (30) calendar days after the date such notice is mailed or within such further time as HUD reasonably determines is necessary to correct the violation, without further notice, HUD may declare a default under this Agreement and may apply to any court, state or federal, for specific performance of this Agreement, for an injunction against any violation of this Agreement, for the appointment of a receiver to take over and operate the Project in accordance with the terms of this Agreement, and/or such other relief as may be appropriate, since the injury to the Secretary arising from a default of the terms of the Agreement would be irreparable and the amount of damage would be difficult to ascertain. The availability of any remedy under the Agreement shall not preclude the exercise of any other remedy available under any provision of the law, nor shall any action taken in the exercise of any remedy be considered a waiver of any other rights or remedies. Failure to exercise any right or remedy shall not be construed as a waiver of the right to exercise that or any other right or remedy at any time.

13. **SUCCESSORS AND ASSIGNS:** This Agreement is binding upon the Grantee's heirs, successors and assigns. If HUD approves a Conveyance during the term of this Agreement, it may be conditioned upon, among other things, the grantee assuming in writing Grantee's obligations under this Agreement.
14. **RESTRICTIONS:** No Member of Congress or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of the benefits of the Use Agreement, but this provision shall not be construed to extend to this Agreement if the Agreement is made with a corporation for its general benefit.
15. **CONTRADICTORY AGREEMENTS:** The Grantee certifies that it has not, and agrees that it will not, execute any other Agreement with provisions contradictory of, or in opposition to, the provisions of this agreement, and that, in any event, the requirements of this Agreement are paramount and controlling as to the rights and obligations set forth herein and supersede any other provisions or requirements in conflict with this Agreement.
16. **SEPARABILITY:** The invalidity of any provision of this Agreement shall not affect the validity of the remaining provisions hereof.
17. **AMENDMENT:** This Agreement may be amended by the mutual written consent of the parties, except those provisions required by statute.
18. **RIDERS TO THE USE AGREEMENT:** The Riders checked below and initialed by the parties are attached to and incorporated into this Use Agreement and will be placed in the Deed to run with the land. Capitalized terms used but not defined in a Rider shall have the meaning ascribed to such term in this Agreement. The use of the term Grantee in a Rider shall be deemed to mean the Purchaser.
 - Enforcement
 - Required Rehabilitation
 - Affordability of Units
 - Nondiscrimination Against Section 8 Certificate Holders and Voucher Holders
 - Relocation
 - Project-Based Section 8 Assistance
 - Reserve Fund for Replacement Account
 - Environmental Hazards
19. **PRIORITY:** This Agreement shall be recorded against the Project in a superior position to any post foreclosure liens or mortgage debts.

The Grantee, successor and assigns ("Grantee" or "Owner") agree(s) to rehabilitate/repair the property to make the project units decent, safe and sanitary as defined by HUD and to complete the work in accordance with the HUD approved work write up and cost estimates. Upon the acceptable completion of the project, the Owner may bill the Department for housing assistance payments for those low (household income does not exceed **eighty (80 %)** percent of Area Median Income, adjusted for family size) or very low income persons (household income does not exceed **fifty (50 %)** percent of Area Median Income, adjusted for family size) occupying the units assisted under the Housing Assistance Payments (HAP) Contract.

SECTION ONE

1. Significant Dates, Contents, and Scope of the HAP Contract.
 - a. Effective Date of the HAP: Upon Closing
 - b. Date for Commencement of Work: - Not later than 30 calendar days after the effective date of this Rider.
 - c. Time for Completion of Project: - Not later than 180 calendar days (not to exceed 6 months unless previously approved) after the effective date of this Rider.
 - d. Final Inspection. HUD (or its designee) shall perform the final inspection of the completed units upon receipt of evidence of completion (Owners Physical Condition Standards Inspection and Certification; see Section Two, paragraph 4) submitted by the owner.
2. HUD Assurance. The acceptance of this Rider by HUD is an assurance by HUD to the Owner that:
 - a. The faith of the United States is solemnly pledged to the payment of housing assistance payments pursuant to the Contract, and
 - b. HUD has obligated funds for these payments.
3. Owner's Failure to Comply with Rider. In addition to other remedies available to HUD for a default by the owner, the Owner and HUD agree that if the Owner fails to comply with the requirements of this Rider;
 - a. HUD may rescind the sale of the project,
 - b. abate the HAP contract and relocate the tenants, and/or

SECTION TWO

1. Schedule of Completion.
 - a. Timely Performance of Work. The Owner agrees to begin work within the time indicated in Section 1 of this Rider. The Grantee/Owner shall report, within three business days, to the Property Disposition (PD) the date work has commenced and shall thereafter furnish PD with periodic progress reports (monthly unless more frequent reporting is required by PD). In the event the work is not commenced, diligently continued, or completed as required under this Rider, the CA, HUD AND/OR PBCA at the direction of PD where the CA AND/OR PBCA is the Public Housing Agency, reserves the right to take such action as it determines appropriate and within its authority.
 - b. If completion is in multiple releases, a minimum of ten (10) % of the units not approved at time of contract execution must be included in each partial release except for the final release. If units are determined acceptable but the number is insufficient to meet the 10% requirement, the Grantee/Owner may not bill for the units until they have been approved on a partial release. The effective date for the units will be the date of the last inspection of the units added to the partial release.
 - c. The work is defined as "the repair and/or replacements necessary to bring the property into compliance with 24 CFR Part 5 Physical Condition Standards." The work may not be inclusive of the total HUD repair requirement for the project (additional repairs may be required under the Post closing Repair Requirements) and may not result in the release of any or all of the repair escrow as required under the "Required Rehabilitation" Rider.
2. Construction or Rehabilitation Period.
 - a. Inspections. Inspections will be limited to no more than 1 per month. Upon written notification from the Grantee/Owner that the property or individual units are in compliance with Physical Condition Standards, HUD will order an inspection of the units. If partial releases have been approved, the signature block for the first partial release shall be executed in accordance with 1b above. (The first integral release will be provided to the Grantee at closing, if any units are determined to meet HUD standards at the time of sale.) The form will reflect the unit numbers and unit types.

The chargeable rents will be the rents reflected in an Exhibit to the Housing Assistance Payments (HAP) Contract signed at closing. The Owner may begin billing for HAP payments upon receipt of the partial release from HUD for occupied units. Payments may be retroactive to the effective date on the release for occupied units. The effective date for each release will be the inspection date for the last unit added to the partial release. No retroactive payments will be made on vacant units. The Owner will be able to bill on a vacant unit after it has been added to an integral release and becomes occupied. The Owner may not bill for units that have not been inspected by HUD and approved for billing under the HAP. At no time may payments be made for units that do not meet HUD's Physical Condition Standard.

- b. Increases in Contract Rents or Utility Allowance. Increases in contract rents or utility allowances during the construction or rehabilitation period are permitted only with HUD approval consistent with HUD regulations.
3. Project Completion.
 - a. The project shall be rehabilitated in accordance with the Physical Condition Standards 24 CFR Part 5. The owner shall be solely responsible for rehabilitation of the project.
 - b. The project shall be in good and tenable condition.
 - c. The project shall be rehabilitated in accordance with applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials.
 4. Review and Inspection.
 - a. Upon receipt of the "Owners Physical Condition Standards Inspection and Certification" (Attachment M) from the Owner, HUD shall order an inspection or notify the Owner if additional evidence of completion is required.
 - b. A HUD representative (or its designee) shall inspect the project in a manner sufficient to enable the inspector to report that he or she has inspected the observable elements and features of the project in accordance with professional standards of care and judgment and that, on the basis of the inspection
 - i. The project or portion thereof has been completed in accordance with this Rider, and that
 - ii. There are no observable conditions inconsistent with the certification of the Owner. If the inspection disclosed defects or deficiencies, the inspector shall report these in detail and HUD will notify the Owner of the items that must be corrected.
 - c. Unconditional Acceptance. If HUD determines from the review and inspection that the project (or on those units if partial releases are previously approved) has been completed in accordance with this Rider, the Owner and the HUD Field Office (having jurisdiction over the property) shall be promptly notified of the units deemed acceptable and the effective date of the integral release.
 - d. Notification of Non-acceptance. If HUD determines that, based on the review of the Owner's certification of completion and/or HUD's inspection report, the project or portion thereof cannot be accepted, the Owner shall be promptly notified of this decision with a statement of the reasons.
 - e. Contract Rents. The Contract Rents by unit size, amounts of housing assistance payments, and other applicable terms and conditions are specified in the Housing Assistance Payments Contract. The initial Contract Rents shall be the amounts established by HUD and published for the sale.
 5. Defaults. Any default under this Rider constitutes a default under the Housing Assistance Payments (HAP) Contract even in the event no funds have been requested and/or paid from said Contract. Any or all remedies outlined in the HAP Contract and the Use Agreement are the remedies that are applicable to a default under this Rider.
 6. Assignments, Sale or Foreclosure.
 - a. The Owner agrees that the ownership entity has not made and shall not make any sale, assignment, conveyance or transfer, of the HAP Contract or the subject property or any of its interest in them, without the prior written consent of HUD (and the PHA where it is the CA and/or PBCA); however, in the case of an assignment as security for the purposes of obtaining financing of the project, HUD (and the PHA where it is the CA and/or PBCA) shall consent in writing if HUD has approved the terms of such financing.
 - b. The Owner agrees to notify HUD (and the PHA where it is the CA and/or PBCA) promptly of any proposed action covered by 6(a) above. The Owner further agrees to request the prior written consent of HUD (and the PHA where it is the CA and/or PBCA).
 - c. Definitions:
 - i. For the purposes of this part, a sale, assignment, conveyance, or transfer includes but is not limited to one or more of the following:
 - (a) Transfer by the owner, in whole or in part.
 - (b) A transfer by a party having a substantial interest in the Ownership.
 - (c) Transfers by more than one party of interest aggregating a substantial interest in the Ownership,
 - (d) Any significant change in the ownership of interest or in the relative distribution of interest by any other method or means, and
 - (e) Any refinancing of the project.

- ii. An assignment by the Owner to a limited partnership, in which no limited partner has twenty-five percent (25%) or more interest and of which the Owner is the sole general partner, shall not be considered an assignment, conveyance, or transfer that affects the HAP. An assignment by one or more general or limited partners of a limited partnership interest to a limited partner, who will have no more than a twenty-five percent (25%) interest, shall not be considered an assignment, conveyance, or transfer that affects the HAP.
- iii. The term "substantial interest" means any interest of a general partner, corporate officer or Director, any limited partner having a twenty-five percent (25%) or more interest in the organization or any stockholder having a ten percent (10%) or more interest in the organization.
- iv. Notwithstanding the foregoing, a merger, conversion, share exchange, extended lease interest, or interest exchange of corporate or partnership interest will be considered a transfer of the property and require the approval of HUD if property is sold with an Equity Participation Rider.
- d. The Owner and the party executing this Rider on behalf of the Grantee/Owner certify that he/she has the requisite authority to bind the ownership and to execute this rider on behalf of the Purchasing Entity.
- e. Except where otherwise approved by HUD, this Rider and the HAP Contract shall continue in effect in the event:
 - i. Of assignment, sale, or other disposition of the project, or this Rider or the HAP Contract,
 - ii. Of foreclosure of any mortgage note secured by the subject property,
 - iii. Assignment of the mortgage or Deed in lieu of foreclosure of the subject property, or
 - iv. The PHA or HUD takes over possession, operation or ownership of the subject property.

SECTION THREE

1. Review of Tenant Income Verification/Certification. Promptly after Closing, Grantee shall review every Project leasing file and within thirty (30) days after Closing provide a report to the Multifamily Property Disposition Division, which contains the following information for each HAP Unit:
 - a. Unit number,
 - b. Unit type, i.e. 1 bedroom, 2 bedroom, etc...
 - c. Name(s) of lease holders,
 - d. Date of lease,
 - e. HAP Contract rent amount,
 - f. Date of income certification/verification
 - g. Number of family members residing in unit.

Every thirty (30) days thereafter, during the PCS Repair and Tenant Verification Period and without request, Grantee shall provide the Property Disposition Division with a report that reflects all intervening (a) eligibility determinations made by Grantee with respect to new tenants, with supportive verification documents attached, (b) annual verifications and recertifications of family composition and income, including notices to tenant(s) in anticipation thereof, (b) interim recertifications, (c) unit transfers, and (d) gross rent changes, if any, in accordance with all statutory, regulatory, and administrative requirements, including, without limitation, Chapter 7 of the HUD Multifamily Occupancy Handbook, 4350.3 REV-1.

2. Project-based Section 8 Assistance.
 - a. A Housing Assistance Payments (HAP) Contract will be executed at closing. The HAP Contract will cover 36 units in the Property, as specified by HUD. The HAP Contract will initially be funded for a minimum of one (1) month and a maximum of twelve (12) months prior to closing. **The Grantee/Owner agrees to accept the Project-Based Section 8 Housing Assistance Payments Contract.**
 - b. The HAP Contract shall provide that, when a vacancy occurs in any unit in the property requiring Project-Based Section 8 assistance, Owner shall rent the unit to a family that is eligible for said Section 8 assistance under the HAP Contract.
 - c. The Owner agrees that, for any property formerly insured under Section 221(d)(3) or 236 of the National Housing Act, or for which a direct loan under Section 202 of the Housing Act of 1959, was made, any unit in the Property that does not receive Project-Based Section 8 assistance shall remain available and affordable for a period of 20 years under the terms of the Affordability of Units Rider.
 - d. The Owner agrees that at any time the HAP Contract expires, is terminated or not renewed, the Affordability of Units Rider will become applicable to the units previously covered under the HAP Contract. The Owner may reduce the term of the Affordability of Units Rider for such units by the collective term(s) of the HAP Contract and any subsequent renewals effective after this sale.
3. The Owner cannot voucher for Section 8 HAP payments until HUD has inspected the units and determined that they meet the Physical Condition Standards (PCS) of the HAP Contract. Section 8 assistance payments will not be made retroactive to the date of closing. Retroactive payments will not be made on vacant units. Assistance/subsidy will only be paid on occupied units from the effective date on the partial release (or final release if partial releases were not approved) reflecting that the unit(s) was determined to meet the Physical Condition Standards (as per Section 2 Provisions 2 and 4).

4. Prior to receipt of subsidy payments, Owner shall not charge Section 8 eligible tenants more than the amount of the Total Tenant Payment (per the Form HUD-50059) the tenant would be required to pay under the Section 8 program.
5. Other Government Assistance and Adjustments in Project-Based Section 8 Assistance.
 - a. In order to comply with Section 102 of the Department of Housing and Urban Development Reform Act of 1989, and the regulations thereunder, 24 CFR Part(s) 4.9 and 4.11, Owner covenants that it will disclose to Seller:
 - i. Any Federal, State or local governmental assistance, other than the Section 8 assistance provided under the terms of this Use Agreement, that it will receive or reasonably expects to receive prior to or during the term of the Section 8 HAP Contract.
 - ii. In cases where the Owner will receive or reasonably expects to receive such other assistance, the expected sources and uses of all funds that are to be made available for the Property. Such other assistance includes any loan, grant, guarantee, insurance, payment, rebate, subsidy, credit, tax benefit, or any other form of direct or indirect governmental assistance.
 - b. In order to comply with this requirement, the Owner, within ten (10) Federal Government business days after receiving notice that he/she has been selected to purchase the Property, must complete and execute a Certification of Disclosure.
 - c. Within 30 calendar days of any changes in circumstances occurring at any time before or during the term of the Section 8 HAP Contract that affect the accuracy of the Certification of Disclosure, the Grantee/Owner shall submit to HUD a revised Certification. HUD may reduce the amount of Section 8 assistance provided for the Property to compensate in whole or in part, as the Department deems appropriate, for any increases in other assistance.
6. Affordability and Availability of Project-based Section 8 Units. In order to assure compliance with 12 USC §1715z-11a(a), the Secretary of HUD, pursuant to a HAP Contract, will provide housing assistance under Section 8 of the United States Housing Act of 1937 (42 USC §1437f) for the Property predicated on the availability of funds. During the term of the HAP Contract, the Owner shall maintain all dwelling units covered thereby after the date of this Use Agreement in accordance with the requirements of the HAP Contract and the Section 8 Housing Assistance Payments Program. The Owner shall not remove any existing tenant solely due to the tenant's ineligibility for Section 8 assistance, so long as the tenant remains in good standing. However, if an existing Section 8 ineligible tenant moves/relocates from the property, the Owner shall rent the unit to an income eligible family, if the unit is assisted under the HAP Contract. This provision shall be enforceable by the HUD, Eligible Families or any other tenants on the Property.
7. The Owner agrees to request and accept project-based Section 8 assistance or any other subsequent rental assistance offered by HUD and shall execute a Housing Assistance Payments Contract at closing. Should HUD elect not to extend future Section 8 assistance or not renew the HAP Contract or any subsequent rental assistance offered by HUD, the Affordability of Units Rider would control rent and income eligibility. Should the Owner elect not to accept or renew the HAP contract, current or future residents who are or would be eligible for the project-based assistance shall not be required to pay rent in excess of the amount that would have been required if the assistance was in place. All units that were assisted under the HAP Contract(s) are restricted for the term of the Use Agreement to occupancy by eligible families in accordance with HUD requirement under the HAP Contract and this Rider and rent payments by these families shall not exceed 30% of adjusted monthly income or the contract rent, whichever is less.
8. The following is a list of units that HUD will release for billing under the HAP contract after HUD has determined that the units have been rehabilitated to meet the Physical Condition Standards in 24 CFR Part 5:

Restripe existing accessible parking space and access aisle and straighten accessible parking sign, per ADA and UFAS accessible requirements. Provide an additional accessible parking space per ADA and UFAS accessible requirements. Restripe entire parking lot. The sidewalk and back terrace are of concrete construction and in fair to good condition. Portion of the terrace require replacement. There are a few cracks in the terrace which require sealant. The City of Lambertton recently repaved a portion of 10th Avenue East, about 20 feet past the City approach/Valley View parking entrance, including curb and gutter. The remaining portion of the avenue is graded dirt and extends to Valley View's east property line.

Landscape

The lawn and landscaping are in good shape and are maintained weekly by Marlow Erikson, during the late spring; summer; and early fall. The City of Lambertton recently repaved a portion of 10th Avenue East and hydro-mulched the entire south property line/city easement.

Amenities

Mail box units are located in the building community room and in good working condition. Trash collection occurs two (2) times a week and is performed by Curry Sanitation, a subsidiary of Waste Management. The dumpster is located in the Mechanical/Trash Room, in the building. A storage building is located at the east side of the site and is in good condition.

Building

The Valley View Apartment building was constructed during 1980. The building is three stories. The corridor link is one-story. The building is constructed on a reinforced concrete slab. The exterior of the building is constructed with a three (3) foot high berm at the building perimeter. The exterior walls below grade are of CMU masonry.

There is a small area of algae on the masonry that requires removal. As the walls continue above grade the construction is of 2 X wood framing with masonry veneer; stucco; and wood siding.

The roof is sloped hip configuration with composition shingles. The composition shingles were installed in January 2012. The roof overhang/soffit finish is 1 X wood trim with a plywood soffit. The soffit is mold-contaminated and a majority of it requires a mold-treatment and/or replacement. Overall the exterior of the complex is in good condition. There is no maintenance ongoing at this time.

Windows / Doors

The windows are original and in good working order. The fixed and operable windows are of single pane construction. There are insulated storm windows in place at this time. All operable windows have screens. The main entrance door and the emergency exit/access doors are metal doors with glass in metal frames. Push bar hardware is provided at the emergency exit/access doors. The original apartment and common entry doors are solid core wood in hollow metal frames, and have been well maintained. The corridor doors: apartment; storage; mechanical/trash; office; and laundry are 20 minute rated and the stair doors are 1-1/2 hour rated. The interior doors are in good condition.

Apartment/Office/Common Areas Interiors

The apartment flooring consists of carpet flooring in the living rooms and bedrooms. A majority of the carpet is the original, which is beyond its useful and requires replacement. A conversation with several tenants indicated they replaced the carpet themselves as some of the previous owners would not replace the worn out original carpet. Resilient flooring is provided in the entry, hallways, kitchen, and bathrooms. A majority of the flooring is original and is in good condition. The apartment walls and ceilings are painted gypsum board. Repaint apartments where minor smudges and scratches occur as part of the "make ready" process before apartment is leased. The material of the original kitchen cabinets and vanities appears to be wood grained veneered plywood and are in good condition. Four (4) apartments are accessible at the first floor. Grab bars have been provided at all accessible showers. There are grab bars at the toilets, but are not compliant with ADA/UFAS requirements. The common area and corridor walls and ceilings are painted gypsum board.

Insect/Termite / Rodent / Vermin Infestation

Insect/rodent/vermin treatment is currently in place. Treatment takes place once every three months. No evidence of insect/rodent/vermin was observed at this time.

MECHANICAL/ELECTRICAL/PLUMBING OBSERVATIONS

MECHANICAL / PLUMBING

Water and sewer services are provided by the City of Lamberton. Natural Gas is provided by Minnesota Energy. Cathodic protection of the natural gas lines is provided by means of plastic pipe to the meter and a plastic wrap and anode bag from the meter to the building. These were apparent at the grade penetration to the gas meter. The on-site manager reported that there are no known current problems with the water distribution, sewer or natural gas systems. Domestic hot water is supplied by two central natural gas fired water boilers located in the First Floor Mechanical Room. The boilers appear to be in satisfactory condition. Heating water is supplied by two central natural gas fired water boilers located in the First Floor Mechanical Room. The apartments are heated by means of hot water baseboard heaters. The boilers appear to be in satisfactory condition, although due to their age, replacement may be required in the next few years as repairs will become more frequent and more costly. The baseboard heater piping appears to be in satisfactory condition, and the baseboard heater guards are in satisfactory condition.

Temperature control is by means of a thermostat and valve at each baseboard heater in each apartment. Air conditioning is provided by means of a wall mounted, self-contained air conditioner. The original units are 220V and sized for cooling the entire apartment. Most of the original units have been replaced with an 110V unit that may or may not be equivalent 12,000 BTUs to cool the entire apartment. Verify that 110v units are capable of providing 12,000 BTU's of cooling or replace units. Kitchen appliances consist of a refrigerator

and electric range and range hood. Most of these appliances are original but in satisfactory condition. The Kitchen sinks are stainless steel double bowl type and in satisfactory condition. Bathroom fixtures include a vanity sink, toilet, and either a tub/shower combination unit or stand-up shower. Most of the fixtures are in satisfactory condition. Bathroom exhaust is by means of a ceiling mounted exhaust fan.

ELECTRICAL

Alliant Energy provides a 120/208 volt, 3 phase electrical service to the property. Electrical service to the property comes in underground to a pad mounted transformers. The service remains underground from the pad mounted transformers to the meter-bases located in the mechanical room. From the meter-base, the power is distributed to each apartment's electric panel. The electrical system overall appears to be in serviceable and satisfactory condition. There are several pole and building mounted light fixtures that provide lighting to the parking lot and common areas that are controlled by a timer. The lights seem to be adequate in number and are in satisfactory condition. A combination of fluorescent and incandescent light fixtures provides the interior lighting in each apartment. There are ceiling mounted light fixtures in the kitchen and hallway and a wall mounted light fixture in the bathroom. Lighting is adequate and generally in satisfactory condition. All apartments will require GFCI protection for the electrical outlets in the kitchens. Apartments that are still equipped with the original smoke detector are hard wired units with battery back-up. Apartments with a new smoke detector are battery powered units. The smoke detectors are located in the living room and are generally in satisfactory condition. There is an automated fire alarm system that appears to be in satisfactory condition. A sprinkler system is located in the Machinery/Trash room. Fire extinguishers and a fire hose cabinet are located in the common corridors and emergency exit/access stairs.

SUMMARY

Overall, the property and building appear to be in good condition. Minor repairs in the parking lot and the service drive are required. Accessibility items need to be addressed in the bathrooms and the parking lot. And minor repairs are required throughout the building – light fixtures.

1.0 Executive Summary

A Phase I Environmental Site Assessment (ESA) of the Valley View Apartment complex (hereinafter, the property) at 200 10th Avenue East, in the City of Lamberton, Redwood County, Minnesota 56152 was performed to assess the environmental condition of the property in accordance and in general conformance with the scope and limitations of ASTM Standard Practice E 1527-05. Any exceptions to, or deletions from, this practice are described in Section 3.4 of this report.

The scope of work for this Phase I ESA included review of historical use information, review of physical setting information, review of federal and state regulatory databases, review of local government records, historical and on site interviews, and a visual reconnaissance of the site and adjoining properties. Further details regarding the scope, objectives, extent and limitations of our services are detailed in the text of the report. Please note that this Executive Summary is only a brief summary of these Phase I ESA services, and the entire report should be read for a comprehensive and accurate understanding of Findings, Conclusions and Recommendations.

1.1 Findings and Opinions

1.1.1 Site Description

The inspector performed a Phase I Environmental Site Assessment (ESA) of the approximately one-acre residential apartment complex property located at 200 10th Avenue East, in Lamberton, Redwood County, Minnesota (herein referred to as the "property"). This inspector did not deviate from ASTM Standard Practice E 1527-05 when performing this Phase I ESA (i.e. no components of the practice were deleted, and no additions to it were made), except as described in Sections 3.0 and 8.0 of this report.

The property is located in the southeast portion of the Lamberton, Minnesota. The property is developed with a 3-story apartment building (senior independent living) and asphalt paved parking lot. The property also contains a storage shed on the northeastern portion of the property. The property was developed on vacant land in 1981. The surrounding land uses are residential and agricultural. The property is bordered to the north by the Valley View Manor Health Care Center (Nursing Home), followed by a Church and residential development. The property is bordered to the south by agricultural land. The property is bordered to the east by a farmstead development followed by agricultural land. The property is bordered to the west by residential development. The ground surface topography appears to slope down slightly to the southeast in the property vicinity. The surrounding properties do not appear to represent an environmental concern to the property.

1.1.2 Findings & Opinions (de minimus, suspect or known RECs)

All appropriate inquiry has been made into the previous ownership and uses of the property consistent with good commercial and customary practice in an effort to minimize liability, and no evidence or indication of *recognized environmental conditions* was identified on the property.

1.1.3 Conclusions

The inspector performed a Phase I ESA conforming with the scope and limitations of ASTM Practice E 1527-05 of the Valley View Apartments property located at 200 10th Avenue East, in Lamberton, Redwood County, Minnesota. Any exceptions to, or deletions from, this practice are described in Section 3.4 of this report. The assessment has revealed no indications of *recognized environmental conditions* in connection with the property.

Although this Phase I ESA should not be misconstrued as a formal compliance audit, the inspector did not note any obvious issues of potential environmental (e.g., regulatory or material) non-compliance during the property inspection.

Asbestos-Containing Material (ACM) Sampling Program

A limited ACM assessment, including bulk sampling, was performed. A total of 11 samples were collected and submitted for analysis of identified suspect ACMs. The inspector submitted the samples to the Laboratory of Centennial, CO, a certified National Voluntary Laboratory Accreditation Program (NVLAP) participant for analysis of asbestos through Polarized Light Microscopy (PLM). The analytical results indicate asbestos was detected in the backing of the yellow, brown and white patterned sheet vinyl flooring (chrysotile 45%) found in uncarpeted common areas and the backing of the brown sheet vinyl flooring (chrysotile 60%) found in unit bathrooms and kitchens. Inspector recommends that this material be managed in accordance with an Operations and Maintenance Plan or remediated by a licensed asbestos contractor. Inspector also recommends a comprehensive ACM survey prior to renovations/ construction or demolition at the property.

Microbial Growth/Water Intrusion Assessment

Inspector observed evidence of microbial growth (suspect mold) on the property building. Inspector observed apparent mold growth under the roof eaves surrounding the building. Sampling of suspect mold areas was not conducted due to access restrictions to the roof eaves. Based on the visual observations, remediation of the mold impacted materials is recommended.

Limited Lead Based Paint

A limited lead based paint visual assessment was conducted. Sampling for LBP was not part of the scope of this assessment. Based on the age of building construction (1981), it is unlikely that LBP has been used at the property. All interior painted surfaces appeared to be in good condition. Some painted areas on the exterior of the building were showing signs of age with peeling and fading. Interviewees stated that LBP has not been used at the property.

Radon Sampling Program

Inspector performed a limited radon screening at the property to obtain data regarding the radon gas levels in the apartment building. A total of two samples were collected using carbon radon test canisters. Radon analytical results were below the EPA action level of 4.0 pCi/L. The User did not request additional conditions for inclusion in the scope of this assessment.

1.2 Recommendations

Based on information collected from the Phase I ESA, the inspector offers no recommendations for further action, with the exception of the following:

Inspector recommends that ACMs identified in this report be managed under an Operations & Maintenance (O&M) Plan until renovation or demolition requires the removal and/or abatement of these materials. Note that a limited survey was conducted, and a comprehensive ACM inspection would be necessary to more fully evaluate the presence of ACM throughout the site structure prior to any future renovation and/or demolition activities for the for this site. Such activities should be undertaken by licensed personnel in accordance with applicable federal, state and local rules and regulations. Areas that were identified as containing microbial growth will be required to be removed and replaced during renovation activities. Although the inspector attempted to observe reasonable accessible areas for microbial growth, please be advised that all areas of the building were not accessed during the site reconnaissance.

3. PURPOSE

- 1) This is a HAP contract between HUD and the owner. The HAP contract is entered pursuant to Section 8.
- 2) The contract units are located in a multifamily property. HUD has conveyed the property to the owner. Prior to HUD acquisition of the property, occupancy of the contract units had been assisted by project-based rental assistance payments under Section 8.

- 3) The purpose of the HAP contract is to provide housing assistance payments on behalf of eligible families who lease and occupy contract units that comply with the HUD PCS. Housing assistance payments will only be paid to the owner for contract units occupied by eligible families who lease contract units from the owner in accordance with statutory requirements, and with all HUD regulations and other HUD requirements.
- 4) Both at the beginning of the contract term and at all times thereafter during the contract term, housing assistance payments will only be paid for contract units that comply with the PCS. - 6) The CA must make housing assistance payments to the owner in accordance with the HAP contract for contract units leased and occupied by eligible families during the HAP contract term.

4. OCCUPANCY AND PAYMENT

A. Payment for occupied unit

During the term of the HAP contract, the CA shall make housing assistance payments to the owner for the months during which a contract unit is leased to and occupied by an eligible family, as determined in accordance with HUD requirements. If an assisted family moves out of a contract unit, the owner may keep the housing assistance payment for the month when the family moves out.

 - a) Immediately upon learning of the vacancy, has notified the CA of the vacancy, or prospective vacancy, and the reason for the vacancy,

C. CA payment to owner

- 1) Each month the CA must make a housing assistance payment to the owner for a unit under lease to and occupied by an eligible family in accordance with the HAP contract.
- 2) The monthly housing assistance payment to the owner for a contract unit is equal to the amount by which the contract rent exceeds the tenant rent.
- 3) Payment of the tenant rent is the responsibility of the family. The CA is not responsible for paying any part of the tenant rent, or for paying any other claim by the owner against a family. The CA is only responsible for making housing assistance payments to the owner on behalf of a family in accordance with the HAP contract.
- 4) The owner will be paid the housing assistance payment under the HAP contract on or about the first day of the month for which payment is due.
- 5) To receive housing assistance payments in accordance with the HAP contract, the owner must comply with all the provisions of the HAP contract. Unless the owner complies with all the provisions of the HAP contract, the owner does not have a right to receive housing assistance payments.
- 6) If the CA determines that the owner is not entitled to the payment or any part of it, the CA, in addition to other remedies, may deduct the amount of the overpayment from any amounts due the owner, including amounts due under any other housing assistance payments contract.

 - 2) Selecting tenants.
 - 3) Determining tenant eligibility.

- 2) The owner is providing all the services, maintenance and utilities as agreed to under the HAP contract and the leases with assisted families.
- 3) Each contract unit for which the owner is receiving housing assistance payments is leased to an eligible family, and the lease is in accordance with the HAP contract and HUD requirements.
- 4) To the best of the owner's knowledge, the members of an eligible family reside in each contract unit for which the owner is receiving housing assistance payments, and the unit is the family's only residence.

- 8) The family does not own, or have any interest in the contract unit. If the owner is a cooperative, the family may be a member of the cooperative.

9. CONDITION OF UNITS

A. Owner maintenance and operation

- 1) The owner shall comply with the Physical Condition Standards and inspection requirements of 24 C.F.R. Part 5, Subpart G, including any changes in the regulation and related Directives. In addition, the owner shall comply with HUD's Physical Condition Standards of Multifamily Properties of 24 C.F.R. Part 200, Subpart P, including any changes in the regulation and related Directives. This obligation shall apply both during the current term of the HAP contract and during each successive renewal term.

- 2) The owner must maintain and operate the contract units and premises to provide decent, safe and sanitary housing in accordance with the PCS, including performance of ordinary and extraordinary maintenance.
- 3) Both at the beginning of the contract term, and at all times thereafter during the contract term, the owner shall not request payment for or receive any housing assistance payment for any unit during any period when the unit or premises are not in accordance with the PCS.
- 4) If the premises or any contract unit is not in compliance with the PCS at the beginning of the contract term, the owner must promptly perform any ordinary or extraordinary maintenance necessary to bring the unit into compliance with the PCS. However, the owner shall not request or receive any housing assistance payment with respect to a contract unit for any period when the premises or the unit are not in accordance with the PCS.
- 5) The owner must provide all the services, maintenance and utilities set forth in Exhibit B, and in the lease with each assisted family.

B. CA inspection

The CA may inspect the contract units and the premises annually, and any time the CA deems necessary to assure that the contract units and premises are in accordance with the PCS, and that the owner is providing the maintenance, utilities, and other services in accordance with the leases and the HAP contract. The CA shall give the owner reasonable notice of the annual inspection.

C. Violation of PCS

- 1) If the CA determines that a contract unit is not in accordance with the PCS, the CA may exercise any of its remedies under the HAP contract for all or any contract units. Such remedies include termination, suspension or reduction of housing assistance payments, and termination of the HAP contract. The CA may exercise any contractual remedy respecting a contract unit even if the family continues to occupy the unit.
- 2) If the CA determines that the owner has failed to maintain one or more units in decent, safe and sanitary condition, and has abated the housing assistance payments to the owner for such units, the CA may use amounts otherwise payable to the owner pursuant to this Contract, or any Renewal Contract, for the purposes of relocating or rehousing assisted residents in other housing.
- 3) The CA shall not make any housing assistance payment for a dwelling unit that fails to meet the PCS. If a defect is life threatening, the owner must correct the defect within no more than 24 hours. For other defects, the owner must correct the defect within no more than 30 calendar days (or any CA-approved extension). The owner shall not request or receive any housing assistance payment for a dwelling unit for any period prior to the correction of any defect.

- 2) The owner must comply with HUD and CA requirements regarding security deposits from a tenant.
- 3) When the family moves out of the contract unit, the owner, subject to state and local law, may use the security deposit, including any interest on the deposit, in accordance with the lease, as reimbursement for any unpaid tenant rent, damages to the unit or other amounts which the family owes under the lease. The owner must give the family a written list of all items charged against the security deposit and the amount of each item. After deducting the amount used as reimbursement to the owner, the owner must promptly refund the full amount of the balance to the family.
- 4) If the security deposit is not sufficient to cover amounts the family owes under the lease, the owner may seek to collect the balance from the tenant.

12. RESERVE FOR REPLACEMENTS

The owner must establish and maintain a replacement reserve for the property, in the amount required by HUD, to pay for extraordinary maintenance and repair, and for replacement of capital items. The owner must establish, maintain and account for the replacement reserve in accordance with HUD requirements.

13. OVERCROWDED AND UNDEROCCUPIED UNITS

If a contract unit is not decent, safe and sanitary because of an increase in the family size which causes the unit to be overcrowded, or if a contract unit is larger than appropriate for the size of the family, the owner must offer the family a suitable unit as soon as one becomes vacant and ready for occupancy, and the owner must require the family to move.

14. PROHIBITION OF DISCRIMINATION

B. CA remedies

- 1) If the CA determines that a breach has occurred, the CA may exercise any of its rights or remedies under the HAP contract.
- 2) The CA must notify the owner in writing of such determination. The notice by the CA to the owner may require the owner to take corrective action (as verified by the CA) by a time prescribed in the notice.
- 3) The CA's rights and remedies under the HAP contract include recovery of overpayments, termination or reduction of housing assistance payments, and termination of the HAP contract.
- 4) If the CA determines that the owner has failed to maintain one or more units in decent, safe and sanitary condition, and has abated housing assistance payments to the owner for such units, the CA may use amounts otherwise payable to the owner pursuant to this Contract, or any Renewal Contract, for the purposes of relocating or rehousing assisted residents in other housing.

§ 5.703 Physical condition standards for HUD housing that is decent, safe, sanitary and in good repair (DSS/GR).

These standards address the major areas of the HUD housing: the site; the building exterior; the building systems; the dwelling units; the common areas; and health and safety considerations.

- (a) *Site.* The site components, such as fencing and retaining walls, grounds, lighting, mailboxes/project signs, parking lots/driveways, play areas and equipment, refuse disposal, roads, storm drainage and walkways must be free of health and safety hazards and be in good repair. The site must not be subject to material adverse conditions, such as abandoned vehicles, dangerous walks or steps, poor drainage, septic tank back-ups, sewer hazards, excess accumulations of trash, vermin or rodent infestation or fire hazards.
- (b) *Building exterior.* Each building on the site must be structurally sound, secure, habitable, and in good repair. Each building's doors, fire escapes, foundations, lighting, roofs, walls, and windows, where applicable, must be free of health and safety hazards, operable, and in good repair.
- (c) *Building systems.* Each building's domestic water, electrical system, elevators, emergency power, fire protection, HVAC, and sanitary system must be free of health and safety hazards, functionally adequate, operable, and in good repair.
- (d) *Dwelling units.*
 - (1) Each dwelling unit within a building must be structurally sound, habitable, and in good repair. All areas and aspects of the dwelling unit (for example, the unit's bathroom, call-for-aid (if applicable), ceiling, doors, electrical systems, floors, hot water heater, HVAC (where individual units are provided), kitchen, lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls, and windows) must be free of health and safety hazards, functionally adequate, operable, and in good repair.
 - (2) Where applicable, the dwelling unit must have hot and cold running water, including an adequate source of potable water (note for example that single room occupancy units need not contain water facilities).
 - (3) If the dwelling unit includes its own sanitary facility, it must be in proper operating condition, usable in privacy, and adequate for personal hygiene and the disposal of human waste.
 - (4) The dwelling unit must include at least one battery-operated or hardwired smoke detector, in proper working condition, on each level of the unit.
- (e) *Common areas.* The common areas must be structurally sound, secure, and functionally adequate for the purposes intended. The basement/garage/carport, restrooms, closets, utility, mechanical, community rooms, day care, halls/corridors, stairs, kitchens, laundry rooms, office, porch, patio, balcony, and trash collection areas, if applicable, must be free of health and safety hazards, operable, and in good repair. All common area ceilings, doors, floors, HVAC, lighting, outlets/switches, smoke detectors, stairs, walls, and windows, to the extent applicable, must be free of health and safety hazards, operable, and in good repair. These standards for common areas apply, to a varying extent, to all HUD housing, but will be particularly relevant to congregate housing, independent group homes/residences, and single room occupancy units, in which the individual dwelling units (sleeping areas) do not contain kitchen and/or bathroom facilities.
- (f) *Health and safety concerns.* All areas and components of the housing must be free of health and safety hazards. These areas include, but are not limited to, air quality, electrical hazards, elevators, emergency/fire exits, flammable materials, garbage and debris, handrail hazards, infestation, and lead-based paint. For example, the buildings must have fire exits that are not blocked and have hand rails that are undamaged and have no other observable deficiencies. The housing must have no evidence of infestation by rats, mice, or other vermin, or garbage and debris. The housing must have no evidence of electrical hazards, natural hazards, or fire hazards. The dwelling units and common areas must have proper ventilation and be free of mold, odor (e.g., propane, natural gas, methane gas), or other observable deficiencies. The housing must comply with all requirements related to the evaluation and reduction of lead-based paint hazards and have available proper certifications of such (see 24 CFR part 35).
- (g) *Compliance with state and local codes.* The physical condition standards in this section do not supersede or preempt state and local codes for building and maintenance with which HUD housing must comply. HUD housing must continue to adhere to these codes.

*Attach Inspector's Certification if performed by a third party.

OWNER'S PCS INSPECTION INSTRUCTIONS:

To ensure that each unit and inspection is correctly identified, please complete the top portion as follows:

Property Name: is the name of the apartment complex.

Property Address: is the physical location of the property, i.e., usually the site office address

Number of Inspections: the number of inspections as completed by the Owner. (This may not be the first PCS inspection, if so indicate the number of times an inspection of the physical conditions standards has been held for the property.

Building Number: is the building number for the units being inspected.

Unit Number: is the unit number, e.g., Unit 1. If the units are not numbered, but have separate identifying addresses, then use the address for the unit.

Number of bedrooms: self-explanatory

Number of baths: self-explanatory

Unit is Occupied/Vacant: self-explanatory

Grading: The decision of the Inspector can be either: "Pass", "Fail", or "Inconclusive." You may use a check mark and an "x" to indicate your decision.

"N/A" may be used in for lead-based paint inspection. See Section 1.9 for more information.

"Yes" and/or "No" are used to indicate the presence of a room and the attachment of comments/findings.

Comments/Findings: In each Section, an area is provided to indicate if you have attachments which include comments or findings. If you encounter a condition that requires you to provide "comments/findings," indicate that you will be attaching additional pages to the inspection by entering a "Y" in the area provided (highlighted above in red.) Be sure to mark any comments/findings with the unit number or address of the unit to ensure that the reviewer understands to which unit the comments/findings apply. If there are no comments/findings to be attached, then indicate that by marking with "N." EXAMPLE:

Additional comments/findings on separate page (Y/N)	N					
-----------------------------------------------------	---	--	--	--	--	--

NOTE: HUD will allow vouchering for HAP payments only for occupied units covered under the HAP Contract. All HAP units must be inspected.

1. Living Room

1.1 Living Room Present

Is there a living room?

Note: If the unit is an efficiency apartment, consider the living room present.

1.2 Electricity

Are there at least two working outlets or one working outlet and one working light fixture?

In order to qualify, the outlets must be present and properly installed in the baseboard, wall or floor of the room. Do not count a single duplex receptacle as two outlets, i.e., there must be **two** of these in the room, or **one** of these **plus a permanently installed ceiling or wall light fixture**. Both the outlets and/or the light must be working. Usually, a room will have sufficient lights or electrical appliances plugged into outlets to determine workability. Be sure light fixture does not fail just because the bulb is burned out. Do not count any of the following items or fixtures as outlets/fixtures: Table or floor lamps (these are **not** permanent light fixtures); ceiling lamps plugged into socket; extension cords. If the electric service to the unit has been temporarily turned off, enter "Inconclusive" and provide your comments/findings. Contact owner or manager after inspection to verify that electricity functions properly when service is turned on.

1.3 Electrical Hazards

Is the room free from electrical hazards?

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION
(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

Examples of what this means: broken wiring; non-insulated wiring; frayed wiring; improper types of wiring, connections or insulation; wires lying in or located near standing water or other unsafe places; light fixture hanging from electric wiring without other firm support or fixture; missing cover plates on switches or outlets; badly cracked outlets; exposed fuse box connections; overloaded circuits evidenced by frequently "blown" fuses (ask the tenant). If you are uncertain about severity of the problem seek expert advice. Mark "Inconclusive" and provide your comments/findings.

1.4 Security

Are all windows and doors that are accessible from the outside lockable?

"Accessible to outside" means: doors open to the outside or to a common public hall; windows accessible from the outside (e.g. basement and first floor); windows or doors leading onto a fire escape, porch or other outside place that can be reached from the ground. "Lockable" means: the window or door has a properly working lock, or is nailed shut, or the window is not designed to be opened. A storm window lock that is working properly is acceptable. Windows that are nailed shut are acceptable only if these windows are not needed for ventilation or as an alternate exit in case of fire.

1.5 Window Condition

Is there at least one window, and are all windows free of signs of severe deterioration of missing or broken out panes?

Rate the windows in the room (including windows in doors). "Severe deterioration" means that the window no longer has the capacity to keep out the wind and the rain or is a cutting hazard. Examples are: missing or broken-out panes; dangerously loose cracked panes; windows that will not close; windows that, when closed, do not form a reasonably tight seal. If there is only "moderate deterioration" of the windows the item should "Pass." "Moderate deterioration" means windows which are reasonably weather-tight, but show evidence of some aging, abuse, or lack of repair. Signs of deterioration are: minor crack in window pane; splintered sill; signs of some minor rotting in the window frame or the window itself; window panes loose because of missing window putty. Also for deteriorated and peeling paint see 1.9. If more than one window is in this condition, provide your comments/findings.

1.6 Ceiling Condition

Is the ceiling sound and free from hazardous defects?

"Unsound or hazardous" means: the presence of such serious defects that either a potential exists for structural collapse or that large cracks or holes allow significant drafts to enter the unit. The condition includes: severe bulging or buckling; large holes; missing parts; falling or in danger of falling loose surface materials (other than paper or paint). Pass ceilings that are basically sound but have some nonhazardous defects, including: small holes or cracks; missing or broken ceiling tiles; water stains; soiled surfaces; unpainted surfaces; peeling paint (for peeling paint see item 1.9).

1.7 Wall Condition

Is the wall sound and free from hazardous defects?

"Unsound or hazardous" includes: serious defects such that the structural safety of the building is threatened, such as severe buckling, bulging or leaning; damaged or loose structural members; large holes; air infiltration. Pass walls that are basically sound but have some nonhazardous defects, including: small or shallow holes; cracks; loose or missing parts; unpainted surfaces; peeling paint (for peeling paint see item 1.9).

1.8 Floor Condition

Is the floor sound and free from hazardous defects?

"Unsound or hazardous" means the presence of such serious defects that a potential exists for structural collapse or other threats to safety (e.g., stripping) or large cracks or holes allow substantial drafts from below the floor. The condition includes: severe buckling or major movements under walking stress; damaged or missing parts. Pass floors that are basically sound but have some nonhazardous defects, including: heavily worn or damaged floor surface (for ex-ample, scratches or gouges in surface, missing portions of tile or linoleum, previous water damage). If there is a floor covering, also note the condition, especially if badly worn or soiled. If there is a floor covering, including paint or sealant, also note the conditions in your comments/findings, especially if badly worn, soiled or peeling (for peeling paint, see 1.9).

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION
(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

1.9 Lead-Based Paint

Are all painted surfaces free of deteriorated paint? If no, do deteriorated surfaces exceed two square feet and/or more than 10% of a component?

If the unit was built January 1, 1978, or after, no child under age six will occupy or currently occupies it, is a 0-BR, elderly or handicapped unit with no children under age six on the lease or expected, has been certified lead based paint free by a certified lead-based paint inspector (no lead based paint present or no lead-based paint present after removal of lead-based paint.), mark "N/A" and do not inspect painted surfaces. This requirement applies to all painted surfaces (building components) within the unit.

(Do not include tenant belongings). Surfaces to receive a visual assessment for deteriorated paint include walls, floors, ceilings, built in cabinets (sink bases), baseboards, doors, door frames, windows systems including mullions, sills, or frames and any other painted building component within the unit. Deteriorated paint includes any painted surface that is peeling, chipping, chalking, cracking, damaged or otherwise separated from the substrate. All deteriorated paint surfaces **more than 2 sq. ft. in any one interior room or space, or more than 10% of the total surface area of an interior type of component with a small surface area (i.e., window sills, baseboards, and trim)** must be stabilized (corrected) in accordance with all safe work practice requirements and clearance is required. **If the deteriorated painted surface is less than 2 sq. ft. or less than 10% of the component, only stabilization is required. Clearance testing is not required.** Stabilization means removal of deteriorated paint, repair of the substrate, and application of a new protective coating or paint. Lead-Based Paint Owner Certification is required following stabilization activities, except for *de minimis level* repairs.

2. Kitchen

2.1 Kitchen Area Present

Is there a kitchen present?

Note: A kitchen is an area used for preparation of meals. It may be either a separate room or an area of a larger room (for example, a kitchen area in an efficiency apartment).

2.2 - 2.9 Explanation for these items is the same as that provided for "Living Room" with the following modifications:

2.2 Electricity

Are there at least one working outlet and one working, permanently installed light fixture?

Note: The requirement is that at least one outlet and one permanent light fixture are present and working.

2.5 Window Condition

Note: The absence of a window does not fail this item in the kitchen. If there is no window, check "Pass."

2.10 Stove or Range with Oven

Is there a working oven, and a stove (or range) with top burners that work? If no oven and stove (or range) are present, is there a microwave oven and, if microwave oven is owner-supplied, do other tenants have microwaves instead of an oven and stove (or range)?

Both an oven and a stove (or range) with top burners must be present and working. If either is missing and you know that the owner is responsible for supplying these appliances, mark "Fail." Mark "Inconclusive" if the tenant is responsible for supplying the appliances and has not yet moved in. Contact tenant or prospective tenant to gain verification that facility will be supplied and is in working condition. Hot plates are not acceptable substitutes for these facilities. An oven is not working if it will not heat up. To be working a stove or range must have all burners working and knobs to turn them off and on. Under "working condition," also look for hazardous gas hook-ups evidenced by strong gas smells; these should fail. (Be sure that this condition is not confused with an unlit pilot light – a condition that should be noted, but does not fail.) If both an oven and a stove or range is present, but the gas or electricity is turned off, mark "Inconclusive." Contact owner or manager to get verification that facility works when gas is turned on. If both an oven and a stove or range are present and working, but defects exist, mark "Pass" and note these in your comments/findings. Possible defects are marked, dented, or scratched surfaces; cracked burner ring; limited size relative to family needs.

2.11 Refrigerator

If there a refrigerator that works and maintains a temperature low enough so that food does not spoil over a period of time?

If no refrigerator is present, use the same criteria for marking either "Fail" or "Inconclusive" as were used for the oven and stove or range. A refrigerator is not working if it will not maintain a temperature low enough to keep food from spoiling over a reasonable period of time. If the electricity is turned off, mark "Inconclusive." Contact the owner (or tenant if unit is occupied) to get verification of working condition. If the refrigerator is present and working but defects exist, note these in your comments/findings.

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION
(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

Possible minor defects include: broken or missing interior shelving; dented or scratched interior or exterior surfaces; minor deterioration of door seal; loose door handle.

2.12 Sink

Is there a kitchen sink that works with hot and cold running water?

If a permanently attached kitchen sink is not present in the kitchen or kitchen area, mark "Fail." A sink in a bathroom or a portable basin will not satisfy this requirement. A sink is not working unless it has running hot and cold water from the faucets and a properly connected and properly working drain (with a "gas trap").

In a vacant apartment, the hot water may have been turned off and there will be no hot water. Mark this "Inconclusive." Check with owner or manager to verify that hot water is available when service is turned on. If a working sink has defects, note this in your comments/findings. Possible minor defects include: dripping faucet; marked, dented, or scratched surface; slow drain; missing or broken drain stopper.

2.13 Space for Storage, Preparation, and Serving of Food

Is there space to store, prepare, and serve food?

Some space must be available for the storage, preparation, and serving of food. If there is no built-in space for food storage and preparation, a table used for food preparation and a portable storage cabinet will satisfy the requirement. If there is no built-in space, and no room for a table and portable cabinet, mark "Inconclusive" and discuss with the tenant. The tenant makes the final determination as to whether or not this space is acceptable. If there are some minor defects, mark "Pass" and indicate this in your comments/findings. Possible defects include: marked, dented, or scratched surfaces; broken shelving or cabinet doors; broken drawers or cabinet hardware; limited size relative to family needs.

3. Bathroom

3.1 Bathroom Present

Is there a bathroom?

Most units have easily identifiable bathrooms (i.e., a separate room with toilet, washbasin and tub or shower). In some cases, however, you will encounter units with scattered bathroom facilities (i.e., toilet, washbasin and tub or shower located in separate parts of the unit). At a minimum, there must be an enclosure around the toilet. In this case, count the enclosure around the toilet as the bathroom and proceed with 3.2-3.9 below, with respect to this enclosure. If there is more than one bathroom that is normally used, rate the one that is in best condition for Part 3. If there is a second bathroom that is also used, complete Part 4 of the checklist for this room.

3.2 - 3.9 Explanation for these items is the same as that provided for "Living Room" with the following modifications:

3.2 Electricity

Note: The requirement is that at least one permanent light fixture is present and working.

3.3 Electrical Hazards

Note: In addition to the previously mentioned hazards, non-GFCI outlets that are located within 6 feet of a water source are considered to be an electrical hazard.

3.5 Window Condition

Note: The absence of a window does not fail this item in the bathroom (see item 3.13, Ventilation, for relevance of window with respect to ventilation). If there is no window, but a working vent system is present, mark "Pass."

3.7 Wall Condition

Note: Include under nonhazardous defects (that would pass, but should be noted in your comments/findings) the following: broken or loose tile; deteriorated grouting at tub/wall and tub/floor joints, or tiled surfaces; water stains.

3.8 Floor Condition

Note: Include under nonhazardous defects (that would pass, but should be noted in your comments/findings) the following: missing floor tiles; water stains.

3.10 Flush Toilet in Enclosed Room in Unit

Is there a working toilet in the unit for the exclusive private use of the tenant?

The toilet must be contained within the unit, be in proper operating condition, and be available for the exclusive use of the occupants of the unit (i.e., outhouses or facilities shared by occupants of other units are not acceptable). It must allow for privacy. Not working means: the toilet is not connected to a water supply; it is not connected to a sewer drain; it is clogged; it does not have a trap; the connections, vents or traps are faulty to the extent that severe leakage of water or escape of gases occurs; the flushing mechanism does not function properly. If the water to the unit has been turned off, mark "Inconclusive."

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION (PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

Obtain verification from owner or manager that facility works properly when water is turned on. If the toilet is "present, exclusive, and working," but has the following types of defects: constant running; chipped or broken porcelain; slow draining, note this in your comments/findings. If drain blockage is more serious and occurs further in the sewer line, causing backup, check item 5.6, "Fail," under the plumbing and heating part of the checklist. A sign of serious sewer blockage is the presence of numerous backed-up drains.

3.11 Fixed Wash Basin or Lavatory in Unit

Is there a working, permanently installed wash basin with hot and cold running water in the unit?

The wash basin must be permanently installed (i.e., a portable wash basin does not satisfy the requirement). Also, a kitchen sink used to pass the requirements under Part 2 of the checklist (kitchen facilities) cannot also serve as the bathroom wash basin. The wash basin may be located separate from the other bathroom facilities (i.e. in a hallway). Not working means: the wash basin is not connected to a system that will deliver hot and cold running water; it is not connected to a properly operating drain; the connectors (or vents or traps) are faulty to the extent that severe leakage of water or escape of sewer gases occurs. If the water to the unit or the hot water unit has been turned off, mark "Inconclusive." Obtain verification from owner or manager that the system is in working condition. If the wash basin is "present and working," but has the following types of minor defects: insufficient water pressure; dripping faucets; minor leaks; cracked or chipped porcelain; slow drain (see discussion above at 3.10), note this in your comments/findings.

3.12 Tub or Shower in Unit

Is there a working tub or shower with hot and cold running water in the unit?

Not present means that neither a tub nor shower is present in the unit. Again, these facilities need not be in the same room with the rest of the bathroom facilities. They must, however, be private. Not working covers the same requirements detailed above for wash basin (3.11). If the tub or shower is present and working, but has the following types of defects: dripping faucet; minor leaks; cracked porcelain; slow drain (see discussion under 3.10); absent or broken support rod for shower curtain, note this in your comments/findings.

3.13 Ventilation

Are there operable windows or a working vent system?

Working vent systems include: ventilation shafts (non-mechanical vents) and electric fans. Electric vent fans must function when switch is turned on. (Make sure that any malfunctions are not due to the fan not being plugged in.) If electric current to the unit has not been turned on (and there is no operable window), mark "Inconclusive." Obtain verification from owner or manager that system works. Note: exhaust vents must be vented to the outside, attic, or crawlspace.

4. Other Room(s) Used for Living and Halls

Complete an "Other Room" checklist for as many "other rooms used for living" as are present in the unit and not already noted in Parts 1, 2, and 3 of the checklist. See the discussion below for definition of "used for living." Also complete an "Other Room" checklist for all entrance halls, corridors, and staircases that are located within the unit and are part of the area used for living. If a hall, entry and/or stairway are contiguous, rate them as a whole (i.e., as part of one space). Additional forms for rating "Other Rooms" are provided in the check-list. Definition of "used for living" Rooms "used for living" are areas of the unit that are walked through or lived in on a regular basis. Do not include rooms or other areas that have been permanently, or near permanently, closed off or areas that are infrequently entered. For example, do not include a utility room, attached shed, attached closed-in porch, basement, or garage if they are closed off from the main living area or are infrequently entered. Do include any of these areas if they are frequently used (e.g., a finished basement/play-room, a closed-in porch that is used as a bedroom during summer months). Occasional use of a washer or dryer in an otherwise unused room does not constitute regular use. If the unit is vacant and you do not know the eventual use of a particular room, complete an "Other Room" checklist if there is any chance that the room will be used on a regular basis. If there is no chance that the room will be used on a regular basis, do not include it (e.g., an unfinished basement) since it will be checked under Part 5, All Secondary Rooms (Rooms not used for living).

4.1 Room Code and Room Location

Enter the appropriate room code given below:

Room Codes:

- 1 = Bedroom or any other room used for sleeping (regardless of type of room)
- 2 = Dining Room or Dining Area

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION
(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

- 3 = Second Living Room, Family Room, Den, Playroom, TV Room
4 = Entrance Halls, Corridors, Halls, Staircases
5 = Additional Bathroom (also check presence of sink trap and clogged toilet)
6 = Other

Room Location: Write on the line provided the location of the room with respect to the unit's width, length and floor level as if you were standing outside the unit facing the entrance to the unit:
right/left/center: record whether the room is situated to the right, left, or center of the unit.
front/rear/center: record whether the room is situated to the back, front or center of the unit.
floor level: identify the floor level on which the room is located.

If the unit is vacant, you may have some difficulty predicting the eventual use of a room. Before giving any room a code of 1 (bedroom), the room must meet all of the requirements for a "room used for sleeping" (see items 4.2 and 4.5).

4.2 - 4.9 Explanations of these items are the same as those provided for "Living Room" with the following modifications:

4.2 Electricity/Illumination

If room code is "1", are there at least two working outlets or one working outlet and one working, permanently installed light fixture?

If room code is not a "1", is there a means of illumination?

If the room code is not a "1," the room must have a means of natural or artificial illumination such as a permanent light fixture, wall outlet present, or light from a window in the room or near the room. If any required item is missing, mark "Fail." If the electricity is turned off, mark "Inconclusive."

4.5 Window Condition

If room code is "1", is there at least one window? And, regardless of room code, are all windows free of signs of severe deterioration or missing or broken-out panes?

Any room used for sleeping must have at least one window. If the windows in sleeping rooms are designed to be opened, at least one window must be operable. The minimum standards do not require a window in "other rooms." Therefore, if there is no window in another room not used for sleeping, mark "Pass," and note "no window" in your comments/findings.

4.6 Smoke Detectors

Is there a working smoke detector on each level?

Do the smoke detectors meet the requirements of NFPA 74?

In units occupied by the hearing impaired, is there an alarm system connected to the smoke detector?

At least one battery-operated or hard-wired smoke detector must be present and working on each level of the unit, including the basement, but not the crawl spaces and unfinished attic. Smoke detectors must be installed in accordance with and meet the requirements of the National Fire Protection Association Standard (NFPA) 74 (or its successor standards). If the dwelling unit is occupied by any hearing-impaired person, smoke detectors must have an alarm system designed for hearing-impaired persons as specified in NFPA 74 (or successor standards). If the unit was under HAP contract prior to April 24, 1993, owners who installed battery-operated or hard-wired smoke detectors in compliance with HUD's smoke detector requirements, including the regulations published on July 30, 1992, (57 F R 33846), will not be required subsequently to comply with any additional requirements mandated by NFPA 74 (i.e., the owner would not be required to install a smoke detector in a basement not used for living purposes, nor would the owner be required to change the location of the smoke detectors that have already been installed on the other floors of the unit). In this case, mark "Pass" and note in your comments/findings.

Additional Notes

For staircases, the adequacy of light and condition of the stair rails and railings is covered under Part 7 of the checklist (General Health and Safety)

5. All Secondary Rooms (Rooms not used for living)

If any room in the unit did not meet the requirements for "other room used for living" in Part 4, it is to be considered a "secondary room (not used for living)," Rate all of these rooms together (i.e., a single Part 5 checklist for all secondary rooms in the unit). Inspection is required of the following two items since hazardous defects under these items could jeopardize the rest of the unit, even if present in rooms not used for living: 5. 2 Security, 5. 3 Electrical Hazards. Also, be observant of any other potentially hazardous features in these rooms and record under 5.4. If there are no "Secondary Rooms (rooms not used for living)," mark "None" under "Description" and go on to Part 6.

5.1 - 5.3 Explanations of these items is the same as those provided for "Living Room."

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION (PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

Additional Note

In recording "other potentially hazardous features," note (in your comments/findings) the means of access to the room with the hazard and mark "Inconclusive." Discuss the hazard with the HA inspection supervisor to determine "Pass" or "Fail." Include defects like: large holes in floor, walls or ceilings; evidence of structural collapse; windows in condition of severe deterioration; and deteriorated paint surfaces.

6. Heating and Plumbing

6.1 Adequacy of Heating Equipment

Is the heating system capable of providing adequate heat (either directly or indirectly) to all rooms used for living?

"Adequate heat" means that the heating system is capable of delivering enough heat to assure a healthy environment in the unit (appropriate to the climate). The HA is responsible for defining what constitutes a healthy living environment in the area of the country in which it operates. Local codes (city or state codes) should be instructive in arriving at a reasonable local definition. For example, for heat adequacy, local codes often require that the unit's heating facility be capable of maintaining a given temperature level during a designated time period. Portable electric room heaters or kitchen stoves or ranges with a built-in heat unit are not acceptable as a primary source of heat for units located in areas where climate conditions require regular heating. "Directly or indirectly to all rooms used for living" means: "Directly" means that each room used for living has a heat source (e.g., working radiator; working hot air register; baseboard heat) "indirectly" means that, if there is no heat source present in the room, heat can enter the room easily from a heated adjacent room (e.g. a dining room may not have a radiator, but would receive heat from the heated living room through a large open archway). If the heating system in the unit works, but there is some question whether a room without a heat source would receive adequate indirect heat, mark "Inconclusive" and verify adequacy from tenant or owner (e.g., unheated bedroom at the end of a long hallway). How to determine the capability of the heating system: If the unit is occupied, usually the quickest way to determine the capability of the heating system over time is to question the tenant. If the unit is not occupied, or the tenant has not lived in the unit during the months when heat would be needed, mark "Inclusive." It will be necessary to question the owner on this point after the inspection has been completed and, if possible, to question other tenants (if it is a multi-unit structure) about the adequacy of heat provided. Under some circumstances, the adequacy of heat can be determined by a simple comparison of the size of the heating system to the area to be heated. For example, a small permanently installed space heater in a living room is probably inadequate for heating anything larger than a relatively small apartment.

6.2 Safety of Heating Equipment

Is the unit free from unvented fuel burning heaters or any other types of unsafe heating conditions?

Examples of "unvented fuel burning space heaters" are: portable kerosene units; unvented open flame portable units. "Other unsafe conditions" include: breakage or damage to heating system such that there is a potential for fire or other threats to safety; improper connection of flues allowing exhaust gases to enter the living area; improper installation of equipment (e.g., proximity of fuel tank to heat source, absence of safety devices); indications of improper use of equipment (e.g., evidence of heavy build-up of soot, creosote, or other substance in the chimney); disintegrating equipment; combustible materials near heat source or flue. If you are unable to gain access to primary heating systems the unit mark "Inconclusive." Contact the owner or manager for verification of safety of the system. If the system has passed a recent local inspection, mark "Pass." This applies especially to units in which heat is provided by a large scale, complex central heating system that serves multiple units (e.g., a boiler in the basement of a large apartment building). In most cases, a large scale heating system for a multi-unit building will be subject to periodic safety inspections by a local public agency. Check with the owner or manager to determine the date and outcome of the last such inspection, or look for a posted inspection certificate.

6.3 Ventilation and Adequacy of Cooling

Does the unit have adequate ventilation and cooling by means of openable windows or a working cooling system?

If the tenant is present and has occupied the unit during the summer months, inquire about the adequacy of air flow. If the tenant is not present or has not occupied the unit during the summer months, test a sample of windows to see that they open. Equipment includes: central (fan) ventilation system; evaporative cooling system; room or central air conditioning. Mark "Inconclusive" if there are no operable windows and it is impossible, or inappropriate, to test whether a cooling system works.

OWNER'S PHYSICAL CONDITIONS STANDARDS INSPECTION AND CERTIFICATION
(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

Check with other tenants in the building (in a multi-unit structure) and with the owner or manager for verification of the adequacy of ventilation and cooling.

6.4 Water Heater

Is the water heater located, equipped, and installed in a safe manner?

"Location presents hazard" means that the gas or oil water heater is located in living areas or closets where safety hazards may exist (e.g., water heater located in a cluttered closet with cloth and paper items stacked against it). Gas water heaters in bedrooms or other living areas must have safety dividers or shields. Water heaters must have a temperature-pressure relief valve and discharge line (directed toward the floor or outside of the living area) as a safeguard against buildup of steam if the water heater malfunctions. If not, they are not properly equipped and shall fail. To pass, gas or oil fired water heaters must be vented into a properly installed chimney or flue leading outside. Electric water heaters do not require venting. If it is impossible to view the water heater, mark "Inconclusive." Obtain verification of safety of system from owner or manager. Mark "Pass" if the water heater has passed a local inspection. This applies primarily to hot water that is supplied by a large scale complex water heating system that serves multiple units (e.g., water heating system in large apartment building). Check in the same manner described for heating system safety, item 7.2, above.

6.5 Water Supply

Is the unit served by an approvable public or private sanitary water supply?

If the structure is connected to a city or town water system, mark "Pass." If the structure has a private water supply (usually in rural areas) inquire into the nature of the supply (probably from the owner) and check with owner or manager for verification of adequacy.

6.6 Plumbing

Is plumbing free from major leaks or corrosion that causes serious and persistent levels of rust or contamination of the drinking water?

"Major leaks" means that main water drain and feed pipes (often located in the basement) are seriously leaking. (Leaks present at specific facilities have already been evaluated under the checklist items for Bathroom and Kitchen.) Leaks causing serious and persistent levels of rust or contamination in the drinking water can be determined by observing the color of the drinking water at several taps. Badly corroded pipes will produce noticeably brownish water. If the tenant is currently occupying the unit, he or she should be able to provide information about the persistence of this condition. (Make sure that the "rusty water" is not a temporary condition caused by city or town maintenance of main water lines.) See general note under 6.5.

6.7 Sewer Connection

Is plumbing connected to an approvable public or private disposal system, and is it free from sewer back-up?

If the structure is connected to the city or town sewer system, mark "Pass." If the structure has its own private disposal system (e.g., septic field), inquire into the nature of the system and determine whether this type of system can meet appropriate health and safety regulations. The following conditions constitute "evidence of sewer back up": strong sewer gas smell in the basement or outside of unit; numerous clogged or very slow drains; marshy areas outside of unit above septic field.

7. General Health and Safety

7.1 Access to Unit

Can the unit be entered without having to go through another unit?

"Through another unit" means that access to the unit is only possible by means of passage through another dwelling unit.

7.2 Exits

Is there an acceptable fire exit from this building that is not blocked?

Is there an acceptable fire exit from this building that is not blocked? "Acceptable fire exit" means that the building must have an alternative means of exit that meets local or state regulations in case of fire; this could include: An openable window if the unit is on the first floor or second floor or easily accessible to the ground; A back door opening on to a porch with a stairway leading to the ground; Fire escape, fire ladder, or fire stairs. "Blocked" means that the exit is not useable due to conditions such as debris, storage, door or window nailed shut, broken lock. Important note: HUD/or the HA has the final responsibility for deciding whether the type of emergency exit is acceptable, although the tenant should assist in making the decision.

(PCS INSPECTION CHECKLIST) – PROPERTY DISPOSITION SALE

7.3 Evidence of Infestation

Is the unit free from rats or severe infestation by mice or vermin?

"Presence of rats" or severe infestation by mice or vermin" (such as roaches) is evidenced by: rat holes; droppings; rat runs; numerous settings of rat poison. If the unit is occupied, ask the tenant.

7.4 Garbage and Debris

Is the unit free from heavy accumulation of garbage or debris inside and outside?

"Heavy accumulation" means large piles of trash and garbage, discarded furniture, and other debris (not temporarily stored awaiting removal) that might harbor rodents.

This may occur inside the unit, in common areas, or outside. It usually means a level of accumulation beyond the capacity of an individual to pick up within an hour or two.

7.5 Refuse Disposal

Are there adequate covered facilities for temporary storage and disposal of food wastes, and are they approvable by a local agency?

"Adequate covered facilities" includes: trash cans with covers, garbage chutes, "dumpsters" (i.e., large scale refuse boxes with lids); trash bags (if approvable by local public agency). "Approvable by local public agency" means that the local Health and Sanitation Department (city, town or county) approves the type of facility in use. Note: During the period when the HA is setting up its inspection program, it will check with the local health and sanitation department to determine which types of facilities are acceptable and include this in the inspection requirements. If the unit is vacant and there are no adequate covered facilities present, mark "Inconclusive." Contact the owner or manager for verification of facilities provided when the unit is occupied.

7.6 Interior Stairs and Common Halls

Are interior stairs and common halls free from hazards to the occupant because of loose, broken, or missing steps on stairways; absent or insecure railings; inadequate lighting; or other hazards?

"Loose, broken, or missing steps" should fail if they present a serious risk of tripping or falling. A handrail is required on extended sections of stairs (generally four or more consecutive steps). A railing is required on unprotected heights such as around stairwells. "Other hazards" would be conditions such as bare electrical wires and tripping hazards.

7.7 Other Interior Hazards

Is the interior of the unit free from any other hazard not specifically identified previously?

Examples of other hazards might be: a broken bathroom fixture with a sharp edge in a location where it represents a hazard; a protruding nail in a doorway.

7.8 Interior Air Quality

Is the unit free from abnormally high levels of air pollution from vehicular exhaust, sewer gas, fuel gas, dust, or other pollutants?

If the inspector has any questions about whether an existing poor air quality condition should be considered dangerous, the inspector should check with the local Health and Safety Department (city, town or county).

8. Decision of Inspector: While it is HUD's position that, if any one unit fails, the Property fails. However, to make future inspections easier, we are requiring that the Inspector indicate the grade (i.e., Pass or Fail) for each unit individually.

Be sure to submit all pages of the inspection report, including any/all comment/finding pages. Do not include the instructions with your submission. HUD will not accept any inspection report that is not signed and dated by any party to the inspection.
