

--- Salesforce ExAM Application | Log-in Reference Guide ---

This Guide is intended to serve as a reference for PHAs to navigate the different types of log-in options depending on the tablet device the PHA is using, and to differentiate between log-in screens for the *Production* and *Sandbox* environments. Please use the proper URL as listed below when attempting to log-in to the *Production* or *Sandbox* environment:

For iOS users:

- PHA Production URL: hudreac.force.com/inspections
- PHA Sandbox URL: uat-hudreac.cs32.force.com/inspections

For Android users:

- PHA Production URL: <https://hudreac.force.com/inspections>
- PHA Sandbox URL: <https://uat-hudreac.cs32.force.com/inspections>

If you are having trouble with setting up the *Production* or *Sandbox* environment in the Salesforce ExAM Mobile Inspection Application, please take a few minutes to watch the simple, recorded, step-by-step video:

Set-up of the Production Environment: <https://mbaoutcome.wistia.com/medias/36b2ygbbsy>

Note: *Sandbox Environment set-up is identical to above video, but please use “PHA Sandbox URL” (mentioned above) instead of PHA Production URL where appropriate.*

For any other issues please contact:
